U. S. Department of Agriculture

NOT a solitary patch of ground in our community is going to go to waste from now on! Have you a backyard, a front lawn, a window-box? Make it part of America's Victory Gardening program! Make it productive. This catalog's pages are full of easy-to-follow suggestions for beginners and experts! Keep it handy for constant reference while you garden for Victory!

The farmers of America are engaged in a tremendous effort to produce Food for Freedom — in ample quantities to assure a vitamin-strengthened America. You too can grow a Victory Garden — not only of healthful vegetables, salads and fruits — but of flowers to lighten the heart and cheer the eye.

Victory *vitamin* GARDEN

SEED CATALOG

529 So. Flores St. :: San Antonio, Texas

NOW IS THE TIME

TO PLANT A DEFENSE GARDEN

PLANT NOW AND BE READY FOR WHATEVER MAY COME

Higher wages and shorter hours are drawing labor away from farms and market gardens, where overtime means only longer hours and no extra pay. With many men in military training and others engaged in industries concentrating on the manufacture of implements of war, the problem of food production and the transportation of same may become a serious one. This is the time when every home garden will be a contribution to National Defense, and everyone who has the available space should plant and not wait until an actual food shortage may develop. A home garden will not only keep you well supplied with fresh vegetables, but will insure you that you will get the benefits of the rich vitamins which are found in same. It is a fact that vitamins are at the peak when the vegetables are picked fresh, and you are assured of the best in vegetables as well as materially reducing the cost of living.

Due to the war, shipments of vegetable seed from Holland, France and Denmark and many other

foreign countries have stopped and these important sources of seed supply are no longer available, and American Seed production at present is not sufficient for our normal requirements. Due to poor growing conditions this past year, there will be many varieties of seeds which will be exceptionally scarce, and the supply limited.

At the present time, we have ample stocks on hand of most varieties and can fill your orders promptly with the finest tested stocks of American grown vegetable seeds. Due to many short crops the past year, we advise you to place your order early that you may be insured of getting the seeds ordered, as at a later date, we may be able to fill orders only partially as stocks will be exhausted.

You can protect your family and contribute to National Defense by growing most of the vegetables you need in your own back yard. In so doing, you will gain greater independence, better health, economy, pleasure and security.

Sincerely yours,

SATEX SEED COMPANY

Consult us at any time you need advice on planning your garden. Our employees are trained and capable men who will be pleased to help you to solve your garden problems.

THERE IS NO SUBSTITUTE FOR GARDEN FRESH VEGETABLES

THEY TASTE SO MUCH BETTER AND ARE SO MUCH BETTER FOR YOU.

HOW TO ORDER

You will find an order blank and addressed envelope enclosed in this catalog. Write your name and address plainly. Be sure to specify how you want your order shipped unless it is a postpaid order. We fill all orders the day received, unless unable to supply same at the time, and will advise you accordingly, so do not hesitate to write us if the goods do not show up.

REMITTANCES should be made by Postoffice Money Order, Bank Draft or Personal Checks. On orders up to One Dollar, we will accept clean unused postage stamps. If currency is sent, letter should be registered. The proper way is to send remittances in full to cover order and postage. We send orders C.O.D. only if 25 per cent of the amount of order is enclosed. **PLANTS ARE NEVER SENT C.O.D.**

MEXICO CUSTOMERS — Add 20c for first pound and 11c for each extra pound to prices, also 15c for registration. We ship up to 20 pounds per package into Mexico.

ALL GARDEN AND FLOWER SEED listed in catalog are postpaid up to the fifth zone unless otherwise noted. Field Seeds, Bulbs, Poultry Supplies, Remedies, Insecticides, etc., are quoted F.O.B. San Antonio. If you desire same shipped by parcel post, see parcel post rate on page 1 for additional amount to be enclosed with order.

OUR GUARANTEE

We guarantee the safe delivery of all Seeds, Bulbs, Plants or merchandise that you order from us. We guarantee all merchandise to be exactly as illustrated, described and represented. Any item not found to be entirely satisfactory will be replaced free of charge, or we will refund you every cent you paid, including transportation charges both ways.

Even with the highest quality Seeds, Bulbs, and Plants, success in gardening or farming depends largely on cultivation, soil and weather conditions. Therefore—

SATEX SEED CO., give no warranty, express or implied as to the productiveness of any seeds or bulbs we sell and we will not be in any way responsible for the crop. Our liability, in all instances is limited to the purchase price of the seed.

Zones are based on the distance you are from shipping point, San Antonio, Texas. Up to 150 miles from San Antonio is the 1st and 2nd zones, which take the same rate; 150 to 300 miles is the 3rd zone; 300 to 600 is the 4th; 600 to 1000, the 5th; 1000 to 1400, the 6th; 1400 to 1800, the 7th; over 1800 miles, the 8th zone.

How You Can Help in Winning the War

To win a war is not a one-man job. It is the job of each and every individual in this great nation of ours to cooperate with our government and do our bit. We can't all fight, but we can get in back of the men who are doing the fighting by supplying them with the munitions of war. This means guns, tanks, aeroplanes, ammunition, clothes, medical supplies, food, etc. Food is just as essential as guns and ammunition as an army must be well fed to fight at its best, and here is one place where each and every one of us can help who has a small plot of ground. You may say that this nation has always had too much food and there can be no shortages. But let's put on our thinking cap. The government is using many boys in the army that formerly were growers of food, much of farm labor has gone to the various plants to manufacture munitions of war thus creating a shortage of labor on the truck farms so that the grower is forced to curtail his acreage in order to be able to harvest what ever crop he may plant with the limited amount of labor that he has available. This is where you can do your part.

PLANT A VICTORY GARDEN

No matter how small a plot of ground you have, you can and you should grow some of your own vegetables, thus releasing the food grown by the commercial growers to the areas where it is impossible to grow any vegetables and to our men in the army. If each and everyone of us will do their part we will not need to worry about any food shortages and rationing of same. However if we will take the attitude of letting our neighbor do the planting, we may in this land of plenty, see a shortage of many of items of food and a rationing of same. We have a competent and well trained group of employees who can advise you on the amount of seed it requires to plant your plot, when to plant, how to plant and how to take care of your crop. Plan and plant a Victory Garden. Help by raising part of your own food and put the savings in War Bonds. You will find this catalog filled with full information on what to plant and when to plant.

PREPARING THE SOIL

First study your yard and plan your Victory Garden on Paper. Make sure the plot you choose will have plenty of sunlight at least from nine in the morning until three in the afternoon. See that drainage is good. A plot on which water stands after rains will not produce a good garden. Then lay out your paths and rows. Make your rows straight and plant all seed in single rows as straight rows of plants mean less work in planting and cultivating and make a better looking garden. If the soil is too wet and sticky from rain, it is best to postpone spading the soil until it begins to crumble easily. When you feel that the soil is just right, spade as deeply as possible, breaking up the clumps as finely as possible and remove all weed roots and rocks. At the same time work in a good commercial fertilizer applying same at the rate of about 4 pounds to every 100 square feet.

Pulverize the top 3 or 4 inches of the soil as fine and loose as possible. We recommend a 4-12-4 analysis fertilizer as the best all-purpose fertilizer as it is ideal for vegetables, flowers, shrubs, etc. See page 27 for fertilizers.

PLANTING

At the time of planting the soil should be moist but never wet as this has a tendency to pack the soil and make it difficult for seed to force their tiny shoots through the soil. To retain moisture after planting, cover seed immediately with fine soil and press it down firmly and smoothly. This firming of the soil brings the particles of soil in closer contact with the seed and facilitates the germination. A good rule to follow in planting seed is to cover same about four times the thickness of the seed. Seed planted too deep will not come up. Always thin plants when they are about 2 to 3 inches tall to a proper stand. See planting chart page 2.

CULTIVATING

Stirring surface soil during the period of growth kills weeds and stimulates root development, allows air to enter and conserves moisture. Cultivate deep at first and as the plants develop it should be more shallow to avoid injury to the root system.

WATERING

The best time to water is early in the morning or late in the evening. One good soaking is better than many light sprinklings as this only wets the surface of the soil and also causes the roots of the plants to stay close to the surface of the soil.

KEEP THE GARDEN HEALTHY

Spray or dust with reliable insecticides if you have the least suspicion that insects or disease are on your plants. Do not give them a chance to get a foothold. Our men are qualified to give you the correct information on insect control. We carry a complete stock of the best insecticides on the market. They are easily applied and not costly. Remember we are here to help you make your Victory Garden a success. Don't hesitate to ask us to help you solve your garden problems. For insecticides see pages 29 to 31.

Market Gardeners and Large Growers are Invited to Send in Their List for Quantity Prices

VEGETABLE PLANTING SCHEDULE

Name of Vegetable	Quantity required for 100 feet of row	Quantity required for one acre	Distances apart in inches		Depth of planting in inches	Time of Planting	Mature in days—except as noted
			Rows	In Rows			
Asparagus Plants	60 to 80	9,680	36	15 to 20	8 to 10	January and February	1 year
Beans, Snap	1 lb.	30 to 60 lbs.	30	13 to 15	1	Mar. to May; Aug. to Oct.	40 to 60

Salady	1 lb.	10 to 25 lbs.	12	1	1 to 1 1/2	February to May	115 to 175
Squash, Bush	1 lb.	10 to 25 lbs.	24	24	1	March to August	60 to 80
Squash, Late	1 lb.	2 to 3 lbs.	36 to 48	36	1	April to Sept. to Nov.	100 to 140
Tomato Seed	1/4 oz.	1/4 lb.	36 to 48	18	1 1/2	December to July	100 to 140
Tomato Plants	50 to 65	1 to 2 lbs.	15	1 to 3	1 1/2	April and May	85 to 100
Turnips	1 oz.	1 to 2 lbs.	15	1 to 3	1 1/2	Feb. to May; July to Nov.	50 to 80
Watermelon	1/2 oz.	1 to 3 lbs.	60 to 72	72	1	March to May	115 to 150

A plot 30 x 50 feet will supply a family of four or five with fresh vegetables all summer with plenty left over for canning.

Select seeds of one or two new vegetables or flowers. They'll add interest to your garden.

Be sure to plant succession crops of your favorite sweet corn; then you'll enjoy corn-on-the-cob for a long season.

If you want lots of beans from small space, choose pole varieties.

Be sure to thin plants to the distances given in Planting Schedule above. See column marked in rows; both flowers and vegetables need lots of room to grow.

Soak beet seeds over night before planting if the garden soil is dry.

Grow a few flowers just for fragrance, — wignonne, belladonna, nicotiana, sweet alyssum, for example.

Start spraying the plants in the garden before the insects get a start. It's too late after the damage is done.

SATEX FRESH VEGETABLE SEEDS FOR 1943 SEASON

ASPARAGUS (Esparragos)

CULTURE—Sow seed thinly in drills 1 foot apart early in the spring or fall, after soaking seed in warm water for 1 hour. Use a rich well-worked light soil and when well up, thin plants to 1 inch apart and cultivate often until the plants are a year old.

Transplant or set out the roots in permanent bed, using the richest soil you have thoroughly prepared and worked very deep. Set roots 4 inches deep and 18 inches apart in rows 4 to 6 feet apart. Cultivate frequently until plants meet in the rows. Use plenty of stable manure or other fertilizer on bed before and after setting out roots, mixing well into soil.

MARY WASHINGTON — Light green, heavy yielding early producing large, clear stalks of excellent quality. Very early. Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. 90c.

Martha Washington

BEANS

INOCULATE BEANS With Nitragin D. Page 28. (Green Bush Beans)

1 lb. to 100-ft. row

CULTURE—Plant beans after all danger of frost is past, in warm, dry, well-prepared soil. The rows should be 2 to 3 feet apart, and the seeds covered 1 to 1½ inches. Shallow cultivation should be frequent until blooming then stop, to avoid injury to the root. For succession, plant every two weeks until summer. Frequent picking of the crop insures long bearing. Do not cultivate or pick beans when vines are wet.

BURPEE'S STRINGLESS GREEN POD — 52 days — The pods are medium green, 5 to 6 inches long, cylindrical, larger than those of the Red Valentine but not quite as fleshy, of equally high quality and remain crisp and tender longer. Absolutely stringless. Pkt. 10c; lb. 40c, postpaid; 10 lbs. 2.75, not postpaid.

GIANT STRINGLESS GREEN POD — 54 days — Another exceptionally fine bean for home or market, perfectly stringless, pods longer than Burpee's Stringless, strong, vigorous grower, and a continuous bearer of delicious beans for weeks. Pkt. 10c; lb. 40c, postpaid; 10 lbs. 2.75, not postpaid.

TENDERGREEN or NEW STRINGLESS GREEN POD — 52 days — Highly desirable for truckers and canners. Plant medium large, erect somewhat thick-stemmed, heavily productive. Pods nearly straight, dark green, round, meaty, succulent, absolutely stringless, of outstanding quality. Pkt. 10c; lb. 40c, postpaid; 10 lbs. 2.75, not postpaid.

STRINGLESS BLACK VALENTINE. — 49 days — A wanted sort for market gardeners and home use. Most attractive oval pods, nearly straight, dark green and strictly stringless. Quality and flavor exceptionally good. Pkt. 10c; lb. 40c; postpaid. 10 lbs. \$2.75 not postpaid.

BUSH WAX BEANS (Yellow Pod Beans)

IMPROVED GOLDEN WAX — 49 days — One of the best beans in cultivation. Pods are long, nearly straight, broad and flat, and golden yellow; seed white, more or less covered with two shades of purplish red. Pkt. 10c; lb. 40c, postpaid. 10 lbs. 2.75, not postpaid.

PENCIL POD WAX — 52 days — Early and very productive; pods large, 5 to 6 inches long, round, straight and creaseback, strictly stringless, free from fibre, fleshy and brittle; of highest quality; color very clear yellow. Pkt. 10c; lb. 40c, postpaid. 10 lbs. 2.75, not postpaid.

BUSH LIMA BEANS

BABY POTATO — 72 Days. The beans are small but thick, of bright green color when fresh, and similar in flavor to Fordhook. A thrifter and more robust plant than Henderson Bush. Pods mature very uniformly. Pkt. 10c; lb. 40c, postpaid. 10 lbs. 2.75, not postpaid.

HENDERSON'S DWARF LIMA — 66 days — The earliest variety of dwarf Lima Beans, fully 2 weeks earlier than any other variety. Plants about 16 inches high and very prolific. Beans are small. Recommended to anyone desiring early Lima Beans. Pkt. 10c; lb. 40c, postpaid. 10 lbs. 2.75, not postpaid.

SPECKLED BUSH LIMA — 65 days — This variety is generally known as "calico or speckled" butter bean. The beans are of fine quality, either green-shelled or dry. It is very prolific and does well in the driest weather. The seed is sort of a brownish color. Pkt. 10c; lb. 40c, postpaid.

POLE LIMA BEANS

CAROLINA or SIEVA — 77 days — Beans are small and white on the order of Henderson Bush Lima. Plant of large growth, very early, vigorous and productive. Pkt. 10c; lb. 40c, postpaid.

POLE SPECKLED LIMA — 78 days — This fine Butter Bean is better adapted for the wants of the Southern farmer than any other variety. It is a certain and abundant cropper. The vines are strong growers and cling well to the poles or trellis. Bear early and late. Both pods and beans are larger than the old white Carolina or Sieva Butter Beans; the beans are speckled in color, white spotted with red but are of the very highest quality, both in the green and dry state. Pkt. 10c; lb. 40c, postpaid.

FIELD BEANS

PINTO BEANS — Grown mostly for a dry bean but makes a good snap bean when the pod is young and green. Pods are flat and tender. 1 lb. 25c, postpaid.

POLE BEANS ½ lb. to 100 ft. row.

INTRODUCING — NEW

STRINGLESS IDEAL MARKET OR BLACK SEEDED POLE BEANS. 55 days — This bean is acknowledged to be the best pole bean in existence. It yields better than all other varieties and is very thrifty and extremely prolific. The pods are thick, stringless, meaty, tender and delicious. Pkt. 10c; oz. 40c, postpaid.

STRIPED CREASEBACK — 72 days — A hardy and very productive green podded cornfield bean. The vines are sturdy and of good climbing habit, with small-medium, deep green leaves. The pods are long, about 6 inches, very cylindrical or completely rounded. Pkt. 10c; lb. 40c, postpaid.

KENTUCKY WONDER — 65 days — An excellent green-podded variety; enormously productive, the long pods hanging in great clusters among the entire vine. They cook very tender and melting. Seed dark brown. Pkt. 10c; lb. 40c, postpaid.

KENTUCKY WONDER (WAX) — 68 days — One of the earliest of the pole wax sorts. Pods 8 to 9 inches long, thick, decidedly creaseback; very fleshy, brittle, but stringy. Attractive and fair quality. Color light yellow. Pkt. 10c; lb. 40c, postpaid.

If you have more beans than you can use fresh, put up a few cans before they get too old.

Stringless Green Pod

EVERY CHILD SHOULD HAVE A GARDEN

— a garden all his own! Here's fun and education in all one... an activity of multiple benefits.

If your child is six or over, and hasn't had his or her own garden before, be sure to start him off this year. For a starter, keep the garden small, give it a good, fertile plot, where success will be easy, and "steer" the selection of varieties to kinds that are easy to grow. Then, as skill develops, let him try a broader range of crops.

The child with his own garden learns far more than just the technique of gardening. He learns the joy of gardening, the value of proper planning, the rewards of patience.

Detroit Dark Red

GARDEN BEETS

CULTURE — Plant Beets in rows 18 to 24 inches apart in well prepared soil. Cover seed about 1 inch and thin to a 4-inch stand when plants are up. Plant 1 ounce to 50-foot row; 5 pounds to acre.

CROSBY'S EGYPTIAN — 60 days — We have an unequalled strain of this superb, extra early sort. A flattened globe shape; skin very dark red. Flesh a trifle lighter in color and slightly zoned. Tops small.

Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$1.75, postpaid.

EXTRA EARLY LIGHT ECLIPSE — 65 days — A fine early table beet, top-shaped or tapering, globe shape. Flesh deep crimson, zoned with pink. Crisp and sweet.

Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$1.75, postpaid.

DETROIT DARK RED TURNIP — 68 days — Beets are roundish, smooth; dark red; flesh is bright red zoned with lighter; crisp, tender, sweet; good keeper.

Pkt. 5c; oz. 25c; ¼ lb. 75c; lb. \$2.25, postpaid.

EARLY BLOOD TURNIP — 65 days — A standard, medium early variety of excellent quality; is also good for summer and fall use. The flesh is deep red zoned with a lighter shade; sweet, crisp and tender; nearly round.

Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$1.75, postpaid.

FERRY'S CROSBY — 50 days — The flesh is bright vermillion red with fainter zoning. Tops are small, but fairly coarse. Root flattened, globe shape with small tap root.

Pkt. 5c; oz. 25c; ¼ lb. 75c; lb. \$2.25, postpaid.

SWISS CHARD

CULTURE — Assures an abundance and never-failing supply of fine "greens" all through the summer and fall months. Gives maximum returns for little care and space. Gather when half grown for best flavor. Cut close without injuring heart of plant, and another crop will spring up. Grows in any ordinary garden soil. In rich soil, however, and with good culture, it makes an amazingly luxuriant growth and furnishes an abundance of greens. Sow in rows 12 inches apart, and thin to 5 inches apart in the row. One ounce will sow 100 feet of row; 4 to 5 pounds per acre.

FORDHOOK GIANT — 50 days — No other garden vegetable will produce more nutritious food from a small space than Swiss Chard. Of rapid growth. Foliage and leaf stalks used same as Asparagus or Spinach.

Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$1.75, postpaid

LARGE-RIBBED WHITE — 50 days — Large, smooth leaves of thick texture grown mostly for the heavy main ribs which are prepared like Asparagus. The green succulent foliage is used like Spinach. An old standard variety which still is grown also quite extensively for its pearly white stalks.

Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$1.75, postpaid

Pick the larger leaves of swiss chard, spinach, lettuce and other leafy crops as soon as they are of usable size, allowing the smaller leaves to keep on growing. This will prolong the season for these vegetables.

MANGELS or STOCK BEETS

Too much cannot be said about this wonderful feed and every dairy and every farm and every stock raiser should have at least an acre or two of Stock Beets — the returns will be surprising. Sow in the fall and spring, give the ground thorough cultivation. After first cultivation, thin out, so as to stand 6 inches apart in the row, then cultivate same as you would corn. Sow 5 pounds to the acre, in rows 2½ feet apart.

MAMMOTH LONG RED. No other variety of Mangels can compare with this in yield. It grows well above the ground, is easily harvested; the deep red roots are strong, well formed and solid. Especially well adapted for deep soil. On good soil they will sometimes grow 18 inches long, leaves are dark, the flesh white, being veined with rings of rose-pink. An excellent keeper and a wonderful milk producer when fed to dairy cows. Oz. 20c; ¼ lb. 50c; lb. \$1.50, postpaid.

GIANT HALF SUGAR. This is considered by many the greatest beet for feeding stock; it is richer in sugar than the Mangels and not so rich as the Sugar Beet. It grows about one-half out of the ground and is an excellent feed. Oz. 20c; ¼ lb. 60c; lb. \$1.75.

BROCCOLI

CULTURE — Sow in seed-bed during July, August and September. Transplant in very rich soil in rows 2½ feet apart, 1½ feet between plants. Matures best during cool weather. We recommend 600 pounds 4-12-4 Fertilizer mixture applied when land is prepared. An extra top-dressing of nitrate of soda will stimulate growth. One ounce will produce 1,500 plants; 4 to 6 ounces, an acre.

Broccoli

CALABREZE GREEN SPROUTING — 65 days — This is a distinct variety grown by Italian market-gardeners for Italian trade only. The plant forms a large solid head which remains green. After this head is cut off, a number of smooth sprouts develop from the leaf-axes, each sprout terminating in a small head about 1 inch in diameter. Bunched and sold as a second crop. Sow seed in frames early in spring; market in June and July.

Pkt. 5c; oz. 45c; ¼ lb. \$1.35; lb. \$4.00, postpaid.

CABBAGE

CULTURE — For plants in hot-beds, sow seed early in January, then transplant in open in February and March. Later sow early varieties out-of-doors in March and April. For winter cabbage, sow seed in July, August and September, then transplant in October. One ounce of seed will produce about 3,000 plants; 10 ounces of seed will produce enough plants to set out an acre in rows 30 inches apart.

CABBAGE — Few crops pay back the cost of fertilizing as well as cabbage. Use a good commercial fertilizer that can be applied before planting — and your crop will richly repay your efforts and expenditure.

VOLGA or RUSSIAN — 85 days — A new medium sized sort with round, solid heads, which are deep through. It is extremely hardy. Pkt. 5c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00, postpaid.

RED ROCK — 110 days — The largest and surest heading cabbage, round, solid and dark red; medium to long stem. Pkt. 5c; oz. 50c; ¼ lb. \$1.50; lb. \$4.50, postpaid.

EARLY JERSEY WAKEFIELD — 65 days — The most widely known and popular extra early variety. Heads solid; leaves numerous, deep green and coarsely crimped. Pkt. 5c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00, postpaid.

ALL-HEAD EARLY — 77 days — Deep flat heads slightly rounded at top, 8 to 9 inches broad, 6½ to 7 inches deep usually weigh about 6 pounds. Uniform in size and color. The solid heads are of the finest quality. A heavy yielder. Pkt. 5c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00, postpaid.

All Head Early

DRUMHEAD SAVOY — 90 days — Heads round, compact, solid; leaves numerous, deep green and coarsely crimped. Pkt. 5c; oz. 40c; ¼ lb. \$1.25; lb. \$3.75, postpaid.

CHARLESTON WAKEFIELD — 75 days — About one week later than Early Jersey Wakefield, but the conical heads are fully one-half larger. Pkt. 5c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00, postpaid.

STEIN'S EARLY FLAT DUTCH — 90 days — An early and excellent type of Early Flat Dutch, with a medium stem. Heads round, flat and solid. Pkt. 5c; oz. 40c; ¼ lb. \$1.20; lb. \$3.50, postpaid.

COPENHAGEN MARKET — 75 days — Very fine, stem short; heads large, round and solid, with few outer leaves of an upright growth. Nearly as early as Jersey Wakefield. Pkt. 5c; oz. 50c; ¼ lb. \$1.50; lb. \$4.50, postpaid.

GUARD YOUR GARDEN FROM INSECT PESTS

See pages 29-30-31 for complete list of insecticides.

CABBAGE (Continued)

CHINESE CABBAGE (Wong-Bok) — This wonderful variety produces a beautiful, crisp, celery-like head that bleaches easily. As a salad it rivals the finest lettuce grown; when cooked like spinach or cabbage makes excellent "greens." Sow seed in any good soil, making the rows 24 to 38 inches apart and thinning to 12 inches apart in the rows. It will not stand frost, so sow early in the fall and again in the spring. Be sure and try some of this wonderful variety, as it is easy to grow. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00, postpaid.

CAULIFLOWER

CULTURE — Cauliflower can be planted in the open in the fall months or in hotbeds in the early spring months; transplant when 4 or 5 inches high and water frequently, especially in dry weather. ¼ oz. to 100 feet of row; 4 oz. to the acre.

MOST SELF DECKER EARLY SNOWBALL NO. 18 — 55 days — We believe this to be the best variety in existence, about 7 days earlier than Early Snowball. It is early, of dwarf, compact growth and sure to produce fine heads.

Pkt. 10c; ¼ oz. oz. \$1.50; oz. \$4.00; ¼ lb. \$12.00; lb. \$35.00, postpaid.

EARLY SNOWBALL — 65 days — Popular extra early strain, of dwarf, compact growth. Every plant will make a fine solid head of good size, under favorable circumstances. Pkt. 10c; ¼ oz. \$1.50; oz. \$4.00; ¼ lb. \$12.00; lb. \$35.00, postpaid.

CARROTS

CULTURE — Plant the seed ½ inch deep in loose, deep, well prepared soil, making rows 15 to 24 inches apart. Cultivate as soon as plants are established and thin to 2 to 4 inches in the rows, according to the size of the variety. One ounce will sow 100 feet of row; 3 to 4 pounds, an acre.

Oxheart

ORANGE DANVERS HALF LONG — 75 days — Broad shouldered, cylindrical, admirable in color. Always a favorite because reliable and attractive in form, color and weight. Most popular sort.

OXHEART or GUERANDE — 72 days — One of the most popular and best croppers among the short carrots. The shape is particularly desirable for heavy soil. The true type is about 4½ inches long and 3¼ inches thick at the shoulder. It tapers slightly to the bottom and is very stump-rooted.

Pkt. 10c; oz. 40c; ¼ lb. \$1.20; lb. \$3.50, postpaid.

IMPERATOR — 77 days. An outstanding strain bred for market-garden use and for shipping. It fills the demand for a longer type to compete on markets with California Carrots elongated under irrigation. The roots are 7 to 8½ inches long, graceful, smooth, and uniformly tapered to a semi-blunt end. Flesh is rich orange-red, extending to core. Pkt. 5c; oz. 45c; ¼ lb. \$1.25; lb. \$3.75, postpaid.

CHANTENAY — 72 days — One of the best carrots for all purposes. Roots about 6 inches long, blunt pointed, smooth, fine grained, sweet, a heavy yielder.

Pkt. 5c; oz. 40c; ¼ lb. \$1.25; lb. \$3.75, postpaid.

MORSE BUNCHING — 80 days — Tops short, foliage rather shortly cut, stems medium size and strong. Roots at maturity 1¼ — 1½ by 8 inches in size. Almost cylindrical with rounded shoulders and are well stumped.

Pkt. 5c; oz. 40c; ¼ lb. \$1.25; lb. \$3.75, postpaid.

CELERY

CULTURE — Start seed in partly shaded seed-beds of very rich fine loose soil. Cover seed not over ¼ inch. Transplant when 6 inches high, in rows 24 inches apart, and set the plants 6 inches apart in the rows. One ounce will produce 3,000 plants; 2 to 4 ounces will set an acre.

Golden Self-Blanching

GOLDEN SELF-BLANCHING — 120 days — The best market variety especially for early summer. The plant is naturally golden-yellow both stem and leaves but needs to be blanched to make it brittle; fit for table use; forms rather small bunch.

Pkt. 5c; oz. 65c; ¼ lb. \$2.00; lb. \$6.00, postpaid.

COLLARDS

CULTURE — Sow collards as you would cabbage, the plants should be spaced about 2 feet apart in rows. One ounce of seed will produce about 200 plants.

GEORGIA SOUTHERN — Plant 2 to 3 feet high, forming a cluster of tender undulated leaves at the top of its rather long stem; used as greens.

Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c, postpaid.

CANTALOUPE

CULTURE — Plant in hills 5 to 6 feet apart, dropping 10 seeds to the hill; thin out to three plants to the hill; cultivate until the vines cover the ground, and pinch the ends off the early shoots to induce early fruiting.

ROCKY FORD or NETTED GEM — 92 days — The most largely cultivated variety in use. Grown in great quantities in Colorado. Fruit is slightly oval, finely netted and slightly ribbed. Flesh thick, green, very sweet and of fine quality and high flavor.

Pkt. 5c; oz. 10c; 2 o.s. 20c; ¼ lb. 60c; lb. \$1.75, postpaid.

BURRELL'S SUPERFECTO — 90 days — A Muskmelon that has become very popular in the last few years. Almost round, heavily netted, slightly ribbed; a very good shipper.

Pkt. 5c; oz. 20c; ¼ lb. 60c; \$1.75, postpaid.

Superfecto

HONEY ROCK — 95 days — The flesh is deep, thick, of orange color, with a sugary and luscious flavor all its own. Rind is so tough, and the flesh so firm that it can be allowed to ripen on the vine and then shipped long distances and yet arrive in perfect condition. The fruits are nearly round, medium in size, with a heavy, coarse netting over a slate-colored skin. The strong vigorous vines do not show any trace of blight. It is one of the most prolific varieties grown.

Pkt. 5c; oz. 20c; ¼ lb. 65c; lb. \$2.00, postpaid.

HALE'S BEST NO. 36—85 days—A variety of Cantaloupe which is grown quite extensively in the Imperial Valley of California. Very early and excellent for shipping. The flesh is salmon and the shape oval, with heavy netting and prominent ribs. Very sweet.

Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$1.75, postpaid.

HALE'S BEST NO. 45—Mildew Resistant—85 days—A new variety of Cantaloupe which is grown quite extensively in the Imperial Valley of California. Very early and excellent for shipping. The flesh is salmon and the shape oval, with heavy netting and prominent ribs. Very sweet.

Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$1.75, postpaid.

HONEY DEW — 112 days — The delicious honey-like flavor of this new melon has met with instantaneous public favor and created a sensation wherever used. The fruit is of large size, weighing 8 to 10 pounds each. The rind is perfectly smooth and cream colored. The flesh is from 1½ to 2 inches thick, light green in color, very sweet and juicy.

Pkt. 5c; oz. 20c; ¼ lb. 60c; \$1.75, postpaid.

BANANA CANTALOUPE — 90 days — An extremely long melon, attaining a length of 20 inches and 3 to 5 inches in diameter, weighing about 8 pounds, tapering at both ends, and shaped somewhat like the name it indicates. Lemon-colored skin when mature, with very attractive, thick, pink, or salmon-colored flesh of delicious eating quality.

Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$1.75, postpaid.

CASABA

CASABA-GOLDEN BEAUTY — 110 days — Golden Beauty is bright yellow, about globular, with wrinkled skin, slightly pointed at stem end. The fruits are about 6 to 8 inches in diameter, the flesh pure white and very thick.

Pkt. 5c; oz. 20c; ¼ lb. 65c; lb. \$2.00, postpaid.

CORN (Sweet)

CULTURE — It is well to wait until the ground is warm before planting sweet corn as it is more susceptible to cold than field corn. Plant in rows 2½ to 3 feet apart and piece seed 10 to 12 inches apart in the rows. Cover the seed 1 inch deep. Give frequent and shallow cultivation until tassels appear. Plant 1 lb. to 100-ft. row — 10 lbs. to an acre.

Golden Bantam

EXTRA EARLY ADAMS — 75 days — This is not a Sugar Corn, but is earlier. The ears are short, 12-rowed, and while in condition for roasting cannot be told from Sugar Corn. It will stand earlier planting than Sweet Corn and is a favorite where ever worms work badly on early corn.

Pkt. 10c; lb. 25c, postpaid.

GOLDEN BANTAM — 80 days — Early; golden yellow in color and of highest quality. Ears 6 to 7 inches long, 8-rowed, bearing from 2 to 4 ears to a stalk.

Pkt. 10c; lb. 35c, postpaid.

COUNTRY GENTLEMAN — 90 days — An especially fine quality corn, cob small, white and densely covered with long, slender, white grains without row formation.

Pkt. 10c; lb. 35c, postpaid.

TRUCKERS' FAVORITE — 85 days — A splendid early white corn, coming in directly after Adams Early but much larger. Has a deep white soft grain.

Pkt. 10c; lb. 35c, postpaid.

STOWELL'S EVERGREEN — 95 days — A standard main crop variety, much used for home garden, market and canning. Hardy and productive, very tender and sugary, remaining a long time in condition suitable for boiling.

Pkt. 10c; lb. 35c, postpaid.

TEXAS HONEY JUNE — Requires 87 days. A variety of Sweet Corn, especially adapted to growing in Texas. This corn was perfected by the Texas Experiment Station, at College Station, Texas. Has very heavy shucks, which makes it resistant to ear worm damage. Stalk about 6 feet tall. Ears, medium size, with 14 to 16 rows. We strongly recommend giving this wonderful corn a trial.

Pkt. 10c; lb. 35c, postpaid.

IMPROVED CHICAGO PICKLING — 59 days — Meets the most exacting requirements of critical pickle makers. Vines healthy and very productive. Fruit the right size, shape, color and quality.

Pkt. 5c; oz. 30c; ¼ lb. 85c; lb. \$2.50, postpaid.

STAY GREEN — 55 days — "Stay-Green" is the earliest of the White Spine type; fruit 7 to 8 inches long, cylindrical in shape. Color a beautiful dark green from stem to blossom end, which is retained longer than any variety we know of. Vigorous grower, enormous yield, shipping quality unexcelled, and always commands the highest market price.

Pkt. 5c; oz. 20c; ¼ lb. 65c; lb. \$2.00, postpaid.

STRAIGHT EIGHT — 65 days — Produces symmetrical, almost cylindrical fruits, well rounded at both ends, quite straight, regularly 8 inches in length and from 1½ to 2 inches in diameter. Deep green color; usually free from objectionable pale striping and tipping.

Pkt. 5c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00, postpaid.

IMPROVED LONG GREEN — 70 days — Uniform in size, straight, smooth; deep green in color and a great favorite for slicing.

Pkt. 5c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00, postpaid.

COLORADO, or "A and C" 60 days. A beautifully long, slender, dark green cucumber of excellent shape and intense dark color which is maintained longer than in any other variety. Fruit is inclined to taper, especially at stem end. Seeds form late in season and are few. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00, postpaid.

DILL

Dill — Used for seasoning. Pkt. 5c; oz. 15c; postpaid.

EGG PLANT

CULTURE — Egg Plant seed germinates slowly and should be started in hot beds in February. Set the plants in open ground in April and May. Space the young plants 2½ to 3 feet apart in rows. One ounce of seed will produce 1,500 plants or more, a quarter pound of seed sufficient for an acre.

IMPROVED LARGE PURPLE (Spineless) — 83 days — This variety is a genuine favorite both for market and home garden. The plant is spineless, large and spreading, with light green foliage. It usually produces 4 to 6 large, oval fruits of a splendid dark purple color. The vigor and productiveness and fine quality of the fruit makes it a most profitable variety for market gardening.

Pkt. 5c; oz. 50c; ¼ lb. \$1.50; lb. \$4.50, postpaid.

BLACK BEAUTY — 81 days — Rich dark purple, large and symmetrical, maturing a little earlier than our Improved Large Purple, but usually not quite as large. Very desirable for the market, as the fruit holds its color for a long time.

Pkt. 5c; oz. 50c; ¼ lb. \$1.50; lb. \$4.50, postpaid.

Straight Eight

CUCUMBER

CULTURE — Planting should be delayed until all danger of frost is past. Soil for planting should be warm, moist and loose. Cover seed about ½ inch. Plant in hills 3 to 4 feet apart, 5 or 6 seeds to the hill. When 6 inches tall, thin to 3 plants to the hill. One ounce will plant 100 hills or 2 pounds to the acre.

EARLY FORTUNE — 65 days — Early, good dark color and prolific. Fruits average about 10 inches.

Pkt. 5c; oz. 20c; ¼ lb. 65c; lb. \$2.00, postpaid.

EXTRA LONG WHITE SPINE or EVER-GREEN — 65 days — A fine strain; smooth, frequently 10 inches long; round, handsome, very regular.

Pkt. 5c; oz. 25c; ¼ lb. 75c; lb. \$2.25, postpaid.

IMPROVED EARLY WHITE SPINE — 60 days — Vines vigorous, fruiting early and abundantly. Fruit good-sized, straight and smooth. Splendid for table use and especially desirable for pickles.

Pkt. 5c; oz. 20c; ¼ lb. 65c; lb. \$2.00, postpaid.

ENDIVE

CULTURE — One of the most piquant and tasty salads grown; makes a beautiful garnish, and is splendid for greens. Sow from August, in rows 18 inches apart, covering seed firmly with ½ inch of soil. Thin plants to 10 to 12 inches in the row. One ounce will sow 100 feet of row; 2 to 3 pounds for an acre.

LARGE GREEN CURLED — 95 days — Has very curly leaves, the mid-ribs being white and whitish, and the outer edges very much indented and crested. A very attractive plant and one of the best varieties.

Pkt. 5c; oz. 20c; ¼ lb. 50c; lb. \$1.50, postpaid.

EVER WHITE CURLED — 100 days — The plants are moderately dense, with divided leaves, which are very light yellowish green in color, even the outer ones being very light. This variety blanches readily to an attractive creamy white.

Pkt. 5c; oz. 20c; ¼ lb. 50c; lb. \$1.50, postpaid.

Black Beauty

KOHL RABI

CULTURE — The edible part is the turnip-shaped bulb formed above the ground. It is tender and excellent when used before fully grown, combining the flavors of cabbage and turnip. Sow seed in early spring and when well established thin to 6 inches apart in the row. Plantings may be made in July for fall use. A packet will sow about 40 feet of drill; 1 ounce about 300 feet; 2 pounds sufficient for an acre.

WHITE VIENNA KOHL-RABI

EARLY WHITE VIENNA — 55 days — A turnip-like bulb, formed above ground, combining somewhat the flavor of Cabbage and Turnips. The bulb is large enough to be used in 10 to 12 weeks from time of sowing, and is most tender and deliciously flavored before fully matured.
Pkt. 5c; oz. 50c; ¼ lb. \$1.50; lb. \$4.50, postpaid.

LARGE GREEN — 65 days — This sort is also called Large White. It is hardy, quite late, and used for feeding stock. Bulbs large, weighing 8 to 10 pounds when fully grown; whitish green in color, leaves large and very numerous. **SOLD OUT.**

LETTUCE

CULTURE — Lettuce can be started in cold frames in February and transplanted to open ground as soon as it can be worked. For late crop, sow the seed in open ground as soon as season permits in rows 15 to 18 inches apart; thin heading varieties 1 foot apart in the rows. Looseleaf sorts will stand closer growing. One ounce will plant 200-feet, row; 2 pounds will plant an acre.

EARLY PRIZE HEAD — Forms a mammoth plant, in which even the outer leaves are crisp and tender; color bright green tinted with brownish red. It is of superb flavor and very hardy.

Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.20, postpaid.
ICEBERG — 84 days — A large crisp lettuce, always tender. Iceberg stands hot weather remarkably. Give each head 14 inches in row. The color is light green lightly tinged with brown. Try this either for home or market garden. A little larger than Los Angeles and similar.
Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$1.75, postpaid.

COS — Forms oblong heads of large size. Considered as superior to any other kind. An entire distinct type of lettuce. Sometimes called "Romaine Celery Lettuce."
Pkt. 5c; oz. 20c; ¼ lb. 50c; lb. \$1.50, postpaid.

Imperial No. 847

IMPERIAL No. 847 — 80 days. Produces immense heads as solid as a cabbage. Blanches beautifully; crisp, tender, and free from bitterness. The perfect heads measure 12 to 15 inches across and frequently weigh 2 to 3 pounds each. Outer leaves tightly overlap and are an attractive rich green. The heart is creamy white and the quality superb.

Pkt. 5c; oz. 30c; ¼ lb. 85c; lb. \$2.50, postpaid.

HANSON — 80 days — A fine large-heading variety. Leaves curled on the edges, light yellowish-green in color. The head is crisp and brittle and flavor excellent. Stands warm weather extremely well.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

NEW CHICKEN LETTUCE — Here is a genuine Lettuce which will yield as much or more chicken or rabbit feed as any "greens" plant. When once cut it start to grow again. The leaves can be pulled off each stem like a kale. Chicken Lettuce does not make a head, but sends up a stout stalk 3 to 4 feet high, just loaded with leaves.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

SATEX SPECIAL NEW YORK No. 12 — (The standard head lettuce grown so largely in California and misnamed by the produce trade as Iceberg). Produces immense heads as solid as a cabbage. The interior is beautifully blanched, creamy-white, crisp, delicious and very tender. It is a very strong, robust growing variety. The outer leaves are attractive deep green, broad, frilled at edge.
Pkt. 5c; oz. 30c; ¼ lb. 85c; lb. \$2.50, postpaid.

BIG BOSTON — 76 days — A popular market variety used largely in the South to grow winter Lettuce for the northern markets. A light-green cabbage variety, slightly tinged with brown in the head. Has a fine golden buttery head.

Pkt. 5c; oz. 20c; ¼ lb. 50c; lb. \$1.50, postpaid.

Wonder Melon

WATERMELON

CULTURE — The seed should be planted in hills about 8 feet apart and it is well to work into the soil an abundance of well-rotted manure. It is important that the seed should not be planted before the ground becomes warm and dry, as the young plants are very sensitive to cold and wet. Put 10 to 12 seeds in a hill. When the plants have formed the first pair of rough leaves, they should be thinned so as to leave 2 to 3 of the strongest and best to each hill. Cultivate until vines cover the ground. A packet will plant about 10 hills; an ounce 30 hills; 2 to 3 pounds per acre.

WONDER MELON — 85 days — Here is a watermelon that every grower in the South will plant sooner or later. In quality of flavor there is nothing that will compare with it. A large and long melon resembling the Tom Watson. The rind is rather thin but tough, cutting a big red heart of the finest melon meat that you have ever tasted. White seed, with few to the melon.
Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c, postpaid.

KLECKLEY'S SWEET — 80 days — A very desirable variety for the home garden or near-by markets. Fruit medium-sized, oval and skin dark green, flesh bright red and sweet. Skin is brittle. It is the very sweet, honey-like flavor that makes it especially distinct from all other varieties.
Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c, postpaid.

CLETEX — 85 days — Similar in shape and size to the Tom Watson. Sometimes called Spotted Watson from the fact that it has light green stripes which appear to be spots. Flesh is red and firm, of splendid eating quality. Does not sunburn easily and is a splendid shipper. The seeds are brown to a brown smear.
Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.00, postpaid.

CUT RED TOM WATSON — 90 days — Without doubt the finest grade of Tom Watson seed ever offered the grower. The name represents everything that it stands for. The seed has been selected from only the finest and truest-to-type melons and only then from those that CUT RED from rind to rind. Regardless of what kind of melon you have been planting, it will pay you big dividends to plant some of this splendid seed.

Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c, postpaid.

Garden vegetables begin to undergo a profound change almost as soon as they're picked. In just a few short hours, inevitable natural processes alter their flavor, their texture, their vitamin content.

Anyone who has ever enjoyed good sweet corn fresh from the garden knows what a tremendous difference these changes make. The difference in health — giving qualities is equally great.

Yes, Nature offers rich rewards to the home gardener! So-called "fresh" vegetables from the market just can't compare with the true garden fresh kind.

Which kind will you have, this year?

WATERMELON (Continued)

DIXIE QUEEN — A new melon, round in shape, with white seed; often weighs as much as 60 pounds. Skin is striped dark green and greenish ivory; flesh is bright red, solid and of fine flavor. Rind thin, but strong. Uniform in shape, size, color and quality. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.00, postpaid.

STONE MOUNTAIN — 90 days — A new round watermelon showing slight ribs or lobes like a cantaloupe. The color of the smooth skin is light green. The flesh is a uniform beautiful DEEP CRIMSON without any white hearts or stringiness. The average fruit weighs about 45 pounds. Not suited for distance shipping. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c, postpaid.

DALE — 90 days — This splendid melon is oblong in shape. The tough skin is a dark green color irregularly striped with lighter green. Flesh is dark red in color, fine grained, sweet and luscious. White seed. An excellent shipper. You will find our strain of this excellent melon to be the best. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c, postpaid.

DALE (Special) — 90 days — This seed is selected from the finest melons in the field. Every melon being of very heavy weight and true to type. We can recommend this melon to any one desiring the best in Dale Watermelon seed.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

ALABAMA SWEET — 85 days — A very large, long melon of excellent quality; popular in the South, where it is grown extensively for shipping. The color is rather deep green, with dark, irregular striping. The rind is thin, but very tough. The flesh is bright red, fine grained and sweet. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c, postpaid.

IRISH GREY — 90 days — A valuable melon, producing more melons under any condition than any other variety. Also a fine eating melon, and a grand shipper. The red flesh is very sweet and free from stringiness. The rind will not sunburn and will keep in excellent condition long after picking. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c, postpaid.

FLORIDA GIANT — 90 days — One of the sweetest, largest and earliest watermelons. The fruit is almost round with rich dark green, medium thick rind and scarlet flesh of luscious sweetness. It has few seeds, is firm and solid, almost a heart. Will stand considerable handling making it an excellent shipper. Melons often weigh from 60 to 80 pounds. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25, postpaid.

Florida Giant

GOLDEN HONEY — 90 days. Oblong, medium size. Flesh, beautiful glistening amber shade, very tender, delicious flavor. Has no hard core or stringy sections. Recommended for home use. Pkt. 10c; oz. 20c; ¼ lb. 40c; lb. \$1.10.

CITRON FOR PRESERVING — 95 days — A round light and dark-striped melon, meat greenish-white, useful for preserving only. Seed red and small. Tough rind. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c, postpaid.

Enjoy your garden crops while the vegetables are young and tender. Let nothing go to waste by becoming too old to use.

MUSTARD

CULTURE — Sow frequently in rows 12 to 18 inches apart, covering seed ½ inch deep. Thin plants to 5 to 6 inches apart in the rows. Give clean cultivation. The plants are in condition for use as soon as the leaves are the size of one's hand. Mustard runs to seed quickly, so that successive plantings are necessary for a continuous supply. One ounce will plant 100 feet-row; 2 to 3 pounds will plant an acre.

SOUTHERN GIANT CURLED — 30 days — Leaves are large, light green with tinge of yellow, much crimped and frilled at edges. Plant is upright and slightly spreading in growth. This variety is highly esteemed in the South for the market, as well as for the home garden on account of its vigorous growth, hardness and good quality. Pkt. 5c; oz. 20c; ¼ lb. 50c; lb. \$1.50, postpaid.

LARGE SMOOTH-LEAVED — 30 days — An excellent sort with very large, light green, plain or comparatively smooth leaves, borne well above the ground. This sort is preferred by many, as it is more easily prepared for the table than the rougher-leaved varieties. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$1.75, postpaid.

Large Smooth-Leaved

CHINESE — Leaves twice the size of White English; sweet and pungent.

Pkt. 5c; oz. 20c; ¼ lb. 65c; lb. \$2.00, postpaid

MUSTARD — SPINACH

KOMATSUNA OR TENDERGREEN

MUSTARD-SPINACH — Offered by some dealers in the South as TENDERGREEN. A quick growing vegetable of Oriental origin. It takes the place of spinach, as it remains tender even in dry weather. It is virtually an all season plant. Withstands extreme summer heat, also resistant to cold weather. The large, oblong leaves are dark green in color with a very small center rib. The leaves are cooked and prepared for table the same as Spinach and Turnip or Mustard Greens. It compares favorably to these greens in eating qualities. Does not make roots like Turnips; only small thin roots, about 2 or 3 inches in length.

Pkt. 5c; oz. 20c; ¼ lb. 50c; lb. \$1.50, postpaid.

ONION PLANTS

CRYSTAL WHITE WAX or

YELLOW BERMUDA

100	Postpaid \$.30
500	Postpaid .90
1000	Postpaid 1.50

Write for larger quantity prices.

ONION SETS

CULTURE — Plant 4 inches apart in rows half an inch deep, and 1 foot between the rows, when cultivated by hand. Do not cover the sets entirely. All varieties can be set out in the fall as well as in the spring. One pound plants a 60 foot row.

Red Bottom Sets Lb. 40c; bu.

White Bottom Sets Lb. 40c; bu.

Yellow Bottom Sets Lb. 40c; bu.

Pounds postpaid, bushels f.o.b. San Antonio.

OKRA

CULTURE — Plantings should be delayed until the soil is warm. Plant thinly, in rows 2½ feet apart, and cover seed about 1 inch deep. Thin to about 12 to 15 inches apart. Requires 8 to 10 weeks to mature. One ounce will sow 50 feet of row; 8 pounds, an acre.

KARGER'S

OKRA — Tender and very prolific. Extra early, at least two weeks earlier than most varieties. Bushes of uniform low or dwarf growth, pods thickly set and heavy bearing. Pods do not harden or become tough very readily. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c, postpaid.

WHITE VELVET — Round, white, smooth pods of extra large size produced in abundance. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c, postpaid.

PERKINS

MAMMOTH LONG POD — This variety is about three ft high, very early and productive.

The pods are deep green, very long, slender, slightly corrugated, very tender and of good quality. Desirable market as well as home garden sort. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c, postpaid.

CLEMSON SPINELESS — 68 days. Plants grow 3½ to 4 feet tall. Pods rich green, straight, moderately ridged and of high quality. Remarkably uniform. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c, postpaid.

ONION SEED

CULTURE — Plantings may be made from early September until March. Sow in rich soil, in rows 12 to 15 inches apart, and cover seed lightly. When 4 to 5 inches high, plants should be thinned to 3 to 4 inches apart in the row. Seed also can be sown in seed-beds and later transplanted to the field. Shallow cultivation should be practiced every week for 10 days. One ounce to 100-ft. row; 1 to 3 pounds to the acre.

YELLOW BERMUDA (Straw Color) — 95 days — This is the standard variety and is grown very largely among the large Texas onion growers. It is more hardy, less affected by disease, and more prolific than other onions.

Pkt. 5c; oz. 85c; ¼ lb. \$2.50; lb. \$7.50, postpaid.

CRYSTAL WHITE WAX — 95 days — This is the wavy white onion seen in our markets in the early spring, and it is one of the most beautiful onions on the market. It is absolutely pure white, of the finest flavor, and will always command a premium on the market. Pkt. 5c; oz. 85c; ¼ lb. \$2.50; lb. \$7.50, postpaid.

Handle the vine gently when you're picking peas. Pulling at them may loosen the roots and prevent the later pods from developing.

White Velvet

PARSNIP

CULTURE — Sow the seed in early spring, $\frac{1}{2}$ inch deep, in rows 12 to 18 inches apart. One ounce of seed for 200 feet of row; 5 pounds per acre.

Short-Thick

SHORT-THICK — An excellent variety for the table. The roots are long, with smooth, white skin, uniform in shape, tender and of the best quality. The variety is easily distinguished by the leaves growing from the depression on top of crown of the root.
Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.50, postpaid.

PARSLEY

CULTURE — Soak seed for several hours previous to sowing, in warm water, which will facilitate germination. Sow in border or frame. Thin rows to 8 inches each way. One ounce of seed to 160 feet of drill.

CHAMPION MOSS CURLED — A very curled green and very ornamental.
Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00, postpaid.

PLAIN or SINGLE — A very hardy variety. The leaves are flat and not curled. The best flavored variety.
Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00, postpaid.

PEPPER (Sweet)

PEPPERS ARE SPLENDID IN SALADS
ALSO STUFFED

CULTURE — Plant seed $\frac{1}{2}$ inch deep in hot beds in January or in boxes in the house; when danger of frost is over transplant $1\frac{1}{2}$ feet apart in rows 3 feet wide. One ounce of seed will produce 500 plants.

CALIFORNIA WONDER — 75 days — A new variety which originated in California. It is one of the largest peppers grown and has remarkably thick and sweet flesh. Of excellent quality, a particularly heavy yielder.
Pkt. 5c; oz. 45c; $\frac{1}{4}$ lb. \$1.35; lb. \$4.00, postpaid.

WORLDBEATER — 75 days — This is without doubt, the finest introduction in peppers in ages. It is a cross between Chinese Giant and Ruby King, having the shape of the Ruby King, except that it is broader at the pointed end and almost the size of the Chinese Giant.

Pkt. 5c; oz. 40c; $\frac{1}{4}$ lb. \$1.20; lb. \$3.50 postpaid.

RUBY KING — 69 days — This variety grows to an extraordinary size. When ripe, a handsome, bright ruby color; remarkably mild and pleasant to the taste. For stuffing, no other variety can equal it.

Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.00, postpaid.

PIMENTO or PERFECTION — 73 days — A medium early, prolific, perfectly mild variety with extremely thick flesh. On account of its thick flesh it will hold up for a long time; an excellent sort for canning whole.
Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.00, postpaid.

ENGLISH PEAS ARE DELICIOUS

PEAS

CULTURE — Peas should be planted as early as the ground can be worked, in double rows 8 to 10 inches apart; 2 pounds of seed to 100 feet of drill, 60 pounds per acre. You will have best results with early peas on light, warm soil, but the main will do better on a fairly heavy soil that will retain moisture.

LANDRETH'S EXTRA EARLY — 60 days — A critical gardener wants the best strain as respect earliness, size of pod, flavor, uniformity of ripening, vigor and uniformity in habit of the plant. All these desirable qualities can be found in this pea. This type will produce peas fit for table in 44 to 50 days, according to soil and climatic conditions of the season of their growth.

Pkt. 10c; lb. 40c; postpaid; 10 lbs. \$2.75, not postpaid.

BLISS EVERBEARING — 76 days — An old standard, late, main crop variety. Height 3 feet. Vine and foliage sturdy and strong, dark green; pods usually in pairs containing 4 to 5 light green peas of good quality; matures following Telephone.

Pkt. 10c; lb. 40c; postpaid; 10 lbs. \$2.75, not postpaid.

PEAS. *The first spring activity in the vegetable garden should be the sowing of peas. The low varieties can be planted as soon as the ground can be worked. Taller kinds about 10 or 15 days later.*

The garden pea is rich in nutritious values, containing vitamins A, B and C

California Wonder

PEPPER (Hot) HOT OR PUNGENT VARIETIES

RED CHILI — 82 days — Rather small, bright red variety about 2 inches long and pointed. Pods are used in making Chili Sauce and are very pungent and hot.
Pkt. 5c; oz. 45c; $\frac{1}{4}$ lb. \$1.35; lb. \$4.00, postpaid.

LONG RED CAYENNE — 70 days — A strong, pungent variety, having well pointed fruit, which is bright scarlet when ripe. A very popular variety.
Pkt. 5c; oz. 40c; $\frac{1}{4}$ lb. \$1.20; lb. \$3.50, postpaid.

GREEN MEXICAN PICKLING — A variety widely grown in Mexico and used extensively for pickling and seasoning. The fruits are dark glossy green, thick meaty, and very pungent and considered one of the hottest in cultivation. Length averages $1\frac{1}{2}$ to 2 inches and $1\frac{1}{4}$ inches in diameter. (Pkt. 5c; oz. \$1.00; $\frac{1}{4}$ lb. \$3.00; lb. \$9.00, postpaid.

Thomas Laxton

LITTLE MARVEL — 62 days — The very dark green vines are about 18 inches high, very sturdy and vigorous, and loaded with pods. The pods are very deep green and about 3 inches long, blunt ended and closely packed with peas of medium size. The peas are extremely tender and unsurpassed in sweetness.
Pkt. 10c; lb. 40c, postpaid.

FIRST AND BEST — 60 days — One of the earliest tall varieties, with smooth, round peas, which ripen almost at one time. Grows 2 to $2\frac{1}{2}$ feet high, seed yellow-whitish, pods straight, short and well filled. Quality best of the smooth-seeded early varieties.
Pkt. 10c; lb. 40c; postpaid; 10 lbs. \$2.75, not postpaid.

WHITE MARROWFAT — 88 days — This is a very heavy yielding late variety. Pods large and well filled. The dry peas are of large size and are excellent for cooking.
Pkt. 10c; lb. 35c, postpaid.

ALASKA — 54 days — Blue pea of excellent quality. Earliest of all the blue sorts. A desirable early pea for market gardeners, growing from 2 to $2\frac{1}{2}$ feet, and very productive.
Pkt. 10c; lb. 35c; postpaid; 10 lbs. \$2.25, not postpaid.

THOMAS LAXTON — 60 days — Exceptional color of foliage and pods, in growth this is identical with the Gradus, 2 or 3 days late, but more productive.
Pkt. 10c; lb. 40c, postpaid; 10 lbs. \$2.75, not postpaid.

PUMPKIN

CULTURE — May be planted in middle of spring among corn or in hills 8 to 10 feet apart each way. Four seeds in a hill. If planted in hills, they are cultivated in the same manner as melons and cucumbers. For winter use gather before frost and store in a warm, dry place. Use a packet to 6 hills; 1 ounce for 25 hills; 3 to 4 pounds per acre.

CHEESE — 108 days — A very good table variety. Shape flat, like a cheese box; a good keeper. Often 15 inches across the top.
Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c, postpaid.

KENTUCKY FIELD — 120 days — Sometimes called large Cheese. A very large, flattened pumpkin, averaging about 2 feet through. When ripened the skin is a rich cream color. Flesh yellow and of fine quality.
Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 65c, postpaid.

RADISH

CULTURE — Sow in drills 12 to 18 inches apart and thin out plants to stand about 2 inches apart. Give plenty of water to raise the best radishes. Successive plantings from 1 week to 10 days apart will keep you supplied with good fresh radishes. Sow 1 ounce to 100 feet, 5 to 6 pounds to the acre.

FRENCH BREAKFAST — 25 days — A quick growing, small olive shaped Radish about 1½ inches long by ½ to ¾ of an inch in diameter when fully grown. The color is beautiful deep rose scarlet except a little clear white about the tip. This is an excellent variety for planting outdoors for the home garden. Its small tops and earliness make it also desirable for growing under glass.

Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.20, postpaid.

VICK'S SCARLET GLOBE — 23 days — Most popular shipping variety. Roots are slightly olive-shaped and are a rich, bright scarlet in color. The flesh is white, crisp and tender. Tops are of nice size, about 6 inches or more; easy to bunch.

Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c, postpaid.

Vicks Scarlet Globe

EARLY SCARLET TURNIP, WHITE TIPPED — 21 days — One of the most popular and attractive short varieties. It is globe-shaped, bright rose carmine with bottom and tip clear white. Stems and leaves are small. Very valuable for forcing, also for the garden and market.

Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.00, postpaid.

CRIMSON GIANT — 28 days — If you desire a radish of more than two bites you will find this your liking. Roots large globular, 1 to 1½ inches in diameter, deep crimson in color. The white flesh holds its firmness well and is of superior quality.

Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c, postpaid.

SCARLET CHINA — 50 days — One of the best of winter varieties. The roots are cylindrical, or largest near the bottom, stump rooted or blunt at both ends. The skin is smooth and of a bright deep rose color.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

LONG WHITE VIENNA — 29 days — A very fine, long, white variety; quick growing, ready for use when very young. The flavor is mild and sweet.

Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c, postpaid.

CHARTIER or SHEPARD RADISH — 35 days — A variety of Long Scarlet; top deep crimson; almost white bottom.

Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c, postpaid.

WONDERFUL HALF-LONG SCARLET — 26 days — So rapid in growth as to develop perfectly in 26 days. Grows about 2½ inches long, contrasting from a broad shoulder to a sharp point; very symmetrical and uniform in shape; color, bright scarlet; altogether a gem.

Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c, postpaid.

LONG BLACK SPANISH — 55 days — One of the latest and hardest long garden radishes; especially adapted for winter use. The roots are long, thick, almost black somewhat wrinkled. The flesh is white, of firm texture, decidedly pungent, but well flavored. The roots when matured are usually 7 to 9 inches long by 2 or 3 inches in diameter at the thickest part.

Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c, postpaid.

SPINACH

CULTURE — The seed should be planted in very rich ground in drills 16 to 20 inches apart, and the plants should be thinned out 6 inches apart in the row when the leaves are 1 inch wide. Spinach seed may also be sown broadcast. One ounce, 100 feet; 8 to 10 pounds per acre in drills; 12 to 15 pounds broadcast.

Bloomsdale

BLOOMSDALE — 39 days — As an autumn sort it is superior to all others; but in the spring is inclined to shoot early. The leaves are twisted and bloated, giving them, when ready for shipment, an elasticity adapting them for transportation to long distances and at the same time giving the crop large measuring qualities.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

NEW LONG-STANDING BLOOMSDALE — 42 days — Has all the good points of Bloomsdale, in addition it will withstand the summer heat and does not go to seed.

Pkt. 5c; ¼ lb. 45c; lb. \$1.25, postpaid.

NOBEL GIANT — 42 days — One of the most vigorous and strong growing varieties. The leaves are nearly round, uniformly deep green, quite thick and slightly crimped in the center.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

SQUASH

CULTURE — Squash are very sensitive and planting should be delayed until ground is warm and danger of frost is past. Plant in hills 4 feet apart each way, dropping about 6 seeds in each hill and thinning to 2 plants to a hill when they are up. One ounce plants 40 hills; 2 to 3 pounds to the acre.

YELLOW CROOKNECK — 50 days — The well known summer variety. Fruit long, skin very fine and tender when young.

Pkt. 5c; oz. 20c; ¼ lb. 50c; lb. \$1.50, postpaid.

ZUCCHINI GRAY — 60 days — When matured it is about 12 inches long, 4 to 4½ inches in diameter. The color is mottled light and dark green, giving it a grayish appearance. The squash are used when young, often when real small and tender and the edible qualities are excellent.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

EGG PLANT or PEPPERS. Always, when gathering egg plant or peppers cut them with a knife, leaving only a short piece of stem, rather than run the risk of injuring the plant by pulling them off.

Pie or Sugar

JAPANESE PIE — 115 days — Resembles the Cushaw in shape, but skin is dark green with lighter green stripes. Flesh deep yellow and of good quality. Weight about 12 pounds.

Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.00, postpaid.

GREEN STRIPED CUSHAW — 115 days — Fruits very large, white crooked neck. Color, creamy white, irregularly striped or traced with green. Flesh light yellow, very thick, rather coarse but sweet. This sort is very productive and popular in some sections.

Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.00, postpaid.

PIE PUMPKIN — 118 days — A small round, yellow sort, with fibre pinkish netting. Flesh is thick, sweet and of excellent quality.

Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c, postpaid.

CERTIFIED
SEED POTATOES

IT PAYS TO PLANT CERTIFIED SEED;
ALSO TREAT WITH SEMESAN BEL

The most successful potato growers use nothing but certified seed. Certification has done for potatoes what breeding has done for cereals, cattle, hogs, etc. Less disease, more No. 1 potatoes and greater profit to the grower. Every bag carries the tag of the inspection authorities; this is an assurance that every safeguard has been applied to have them as pure as is humanly possible.

CULTURE — Seed potatoes should be cut with 1 or 2 good eyes to each piece and planted in rows 24 to 36 inches apart, dropping a cut piece from 8 to 12 inches apart in the rows. Cover pieces about 6 inches and cultivate well after they are up but not too close so as not to disturb the root. Potatoes keep best if they are dug when the vines are about half dead. Plant potatoes in well manured or fertilized soil. Buy Certified Stock as they are free of Scab, Spindletuber and Rhizostonia.

IRISH COBBLERS — This variety is one of the most reliable and popular of the early varieties. It is of handsome creamy-white color and of excellent quality, making it most desirable for the best trade. It is a vigorous grower, ripens uniformly and a good keeper; in short, one of the best all-around early potatoes on the market.

Peck 90c, not postpaid.

BLISS TRIUMPH or RED BLISS — This is the most standard red variety in the Southern States. It is very early and matures quickly. The potatoes are round and uniform in shape, eyes slightly depressed and a beautiful bright red in color. It is very hard, and not susceptible to disease.

Peck 90c, not postpaid.

If you are a large grower of potatoes, write us for quantity price. Just drop us a postcard stating amount of potatoes you wish to plant and we will quote you by return mail. No obligation on your part to buy.

SQUASH (Continued)

EARLY WHITE BUSH SCALLOP — 50 days — A very early variety, with flat, creamy white scalloped squashes 4 to 6 inches in diameter. Vine is bush in habit and rather dwarf. This variety is the common "patty pan" squash.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

GREEN TINT WHITE BUSH or BENNING — 53 days — An excellent variety, popular on account of the greenish white color of the young fruits. Plants are of the bush type. Fruits somewhat warted and dull white at maturity.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

MAMMOTH WHITE BUSH SCALLOP — 60 days — An early maturing, somewhat flattened, scallop bush squash of largest size, and the handsomest of the summer varieties for home garden and market. The vines are vigorous and productive.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

COCOZELLE, ITALIAN VEGETABLE MARROW — 65 days — Oblong in shape, shell dark green. Cook and serve the same as other Squash.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

GIANT YELLOW SUMMER STRAIGHTNECK — 65 days — Plants are of the bush type. Fruits thick-necked, warted, straight, orange-yellow in color. Flesh greenish white and of excellent quality.

Pkt. 5c; oz. 45c; ¼ lb. \$1.35; lb. \$4.00, postpaid.

EARLY PROLIFIC STRAIGHTNECK — 55 days. Straight smooth fruits, delicate creamy color. Vines produce abundantly. Peak of perfection in summer squash.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25, postpaid.

TOMATO

CULTURE — For early fruit, sow thinly in a hotbed or indoors in shallow boxes. Harden plants by exposing to the air occasionally. In about 6 weeks the plants will be ready to be set out, provided danger of frost is over. The rows should be 4 to 5 feet apart and the plants about 3 feet apart in the row. One ounce will produce 1,500 plants; 4 to 6 ounces required for an acre.

TOMATOES — Many home gardeners prune their vines by cutting out the shoots from the leaf axils, thinking this will give them better and more abundant fruit. It has, however, been repeatedly proven that such pruning is a waste of time, because it doesn't accomplish these aims.

EARLIANA — 66 days — Very early. Habit of vine dwarf and compact. Fruit borne in clusters of from 10 to 15 in a bunch. A remarkable variety and one which is in good favor with market gardeners.

Pkt. 5c; oz. 45c; ¼ lb. \$1.35; lb. \$4.00, postpaid.

KARGER'S ROOT ROT RESISTANT — Many gardeners have been unable to grow tomatoes on account of root-rot in the soil. This variety has been developed by Mr. Geo. Karger and has proven highly resistant to root-rot. It is a strong vigorous grower with sturdy vines producing an enormous crop of large handsome fruit. The tomatoes are a rich scarlet red color, perfectly smooth, of even color, firm and solid. The skin is smooth and shiny, free from cracks or other irregularities. Has a delicious sub-acid and tasty flavor.

Pkt. containing about 400 seeds, 25c, postpaid.

BEEFSTEAK OR PONDEROSA — 90 days. A wilt resistant large variety. Plant open in habit of growth, heavy, rather light green, vigorous. Fruit large, flat scarlet, rather smooth.

Pkt. 5c; oz. 60c; ¼ lb. \$1.75; lb. \$6.50, postpaid.

RED PLUM — 73 days — A red fruited sort resembling a plum in shape and size. A heavy bearer and used mostly for preserves.

Pkt. 5c; oz. 60c; ¼ lb. \$1.75, postpaid.

RUTERS — 73 days — It has thick outer and inner walls of solid meat, and therefore very small seed cavities and little seed. It is globe-shaped, scarlet-red color, resembling Marglobe. It ripens first in the center of the fruit, so that when eaten on the outside the tomatoes are ripe all through. In great demand for all purposes.

Pkt. 5c; oz. 40c; ¼ lb. \$1.20; lb. \$3.50, postpaid.

GROTHENS GLOBE — 73 days — Wilt resistant, globe shaped. Larger than Marglobe. Deep scarlet.

Pkt. 5c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50.

John Baer

DWARF CHAMPION — 78 days — A dwarf variety sometimes called the tree tomato on account of its upright growth and its ability to stand alone without trellising. Fruit medium-sized, smooth, uniform and of a purplish-carmine color.

Pkt. 5c; oz. 40c; ¼ lb. \$1.20; lb. \$3.50, postpaid.

GULF STATE MARKET — 77 days — This globe shaped purplish-pink tomato has developed from Early Detroit and is as early as that variety. It is said to be especially adapted to the Gulf States and California. The fruits are large, showing little depression around the stem, and free from cracks.

Pkt. 5c; oz. 40c; ¼ lb. \$1.20; lb. \$3.50, postpaid.

CHALK'S EARLY JEWEL — 73 days — A wonderful new variety in that it is early and bears continuously throughout the season. The fruit is large, smooth, uniform and well ripened clear to the stem, and the flavor and quality are especially fine. Color bright scarlet.

Pkt. 5c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00, postpaid.

PRITCHARD — 73 days — A scarlet self-topper, disease resistant variety. Fruits large, smooth, globular, solid with thick walls and cross sections. Color is brilliant red both exterior and interior.

Pkt. 5c; oz. 40c; ¼ lb. \$1.20; lb. \$3.50.

RED ROCK — 83 days — A mid-season variety resembling Matchless. Plant medium in growth. Fruits are medium large, thick, flat, deep scarlet, smooth and good quality.

Pkt. 5c; oz. 30c; ¼ lb. 85c; lb. \$2.50, postpaid.

JUNE PINK — 69 days — A very early and productive pink form of Earliana. The best early pink on the market. Fruit solid and borne in profusion.

Pkt. 5c; oz. 45c; ¼ lb. \$1.35; lb. \$4.00, postpaid.

STONE — 86 days — The best main-crop tomato for all purposes, and largely used for canning. Vine tall and prolific. Fruits smooth, large and uniform. Color bright scarlet.

Pkt. 5c; oz. 30c; ¼ lb. 85c; lb. \$2.50, postpaid.

BREAK O'DAY — 73 days — Developed by F. J. Pritchard of Washington, D. C. A new wilt resistant tomato that is nearly as early as Earliana and as productive as Marglobe. Its fruits are large, smooth, meaty, red and globular, very similar to Marglobe but usually larger, used whole for salads or stuffed.

Pkt. 5c; oz. 60c; ¼ lb. \$1.75; lb. \$5.00, postpaid.

STOKESDALE — 70 days — An extremely important new development. Smooth, 7 oz. fruit, brilliant color, exceedingly solid flesh and small seed cavities. Matures in the second-early group, a full week earlier Marglobe group. Usually ahead of Bonny Best, too, and 2 ounces heavier.

Pkt. 5c; oz. 40c; ¼ lb. \$1.20; lb. \$3.50, postpaid.

MARGLOBE — 75 days — Tested repeatedly and approved by U. S. Dept. of Agriculture. Sure to be planted extensively before long. This is what the Department says about it: "Very productive, second early variety. Fruits large, smooth, meaty, red, globular. Highly resistant to wilt and somewhat resistant to blights."

Pkt. 5c; oz. 40c; ¼ lb. \$1.20; lb. \$3.50, postpaid.

JOHN BAER — 70 days — Early variety, maturing with Bonny Best producing fruit equally as good as Chalk's Jewel. Color bright scarlet; good size and smooth. The seed we offer was grown from the introducer's stock.

Pkt. 5c; oz. 30c; ¼ lb. 90c; lb. \$2.75, postpaid.

McGEE — 70 days — Well known in this State on account of its heavy-bearing qualities. It will yield splendid crops when all other varieties fail. Bright crimson, solid and good flavor.

Pkt. 5c; oz. 40c; ¼ lb. \$1.20; lb. \$3.50, postpaid.

YELLOW PLUM — 73 days — A small-fruited, bright golden yellow variety, very attractive; for salads or preserves.

Pkt. 5c; oz. 60c; ¼ lb. \$1.75, postpaid.

YELLOW PEAR — 73 days — Same as Yellow Plum, except that it is the shape of a pear and a trifle smaller.

Pkt. 5c; oz. 60c; ¼ lb. \$1.75, postpaid.

Clark's Special Early

RUTABAGA

CULTURE — Rutabagas require a longer growing season than turnips. Seed may be sown at the same time you plant turnips, in rows 2½ to 3 feet apart. Culture is practically the same as for turnips except the plants should be thinned to 8 to 10 inches apart in the row. One ounce will sow 400 feet of row; 1 to 2 pounds per acre.

AMERICAN PURPLE TOP or LONG ISLAND — 88 days — One of the best and most popular varieties, with yellow flesh. It is yellow below ground, with purple top above, and the leaves are small. A good stock-feeder or table variety.
Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.50, postpaid.

TURNIP

CULTURE — Sow in rows 18 inches apart, covering seed ½ inch deep, pressing the soil down firmly and smoothly. Plants should be thinned to 4 to 6 inches apart. Also sown broadcast. For best quality grow turnips in new ground. One ounce will sow 200 feet of row; 2 pounds an acre.

LOUSE RESISTANT — A splendid white globe turnip which grows well in hot and dry weather. Lice do not seem to attack this variety as quickly as other turnip greens.
Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.50, postpaid.

MARKET GROWERS—NOTE!

**SATEX strains of
VEGETABLE SEEDS
are unsurpassed.**

Market growers please write for special quotations.

WHITE EGG — 55 days — A sort forming a root the shape and size of an egg in an incredibly short period after sowing. Flesh always palatable.
Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c, postpaid.

PURPLE TOP-WHITE GLOBE — 50 days — An early medium-sized, globular shaped turnip of good quality for table or stock. Heavy producer, good quality while young.
Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 60c, postpaid.

POMERANIAN WHITE GLOBE — 75 days — Large variety used largely for stock; is globe-shaped, large leaves, hardy.
Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c, postpaid.

PURPLE TOP FLAT DUTCH — 46 days — Strap leaved; early flat variety. White with purple top. It matures quickly and has fine-grained flesh of fine flavor. It forms early a fine root, even in shade and of the best quality.
Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c, postpaid.

YELLOW ABERDEEN — 70 days — A large sized, late maturing, long keeping, yellow fleshed turnip. It is hardy, productive, and valuable for stock feeding. The roots are yellow with purple top. The flesh is pale yellow, firm, tender and sweet.
Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c postpaid.

Young turnip tops make excellent greens. When you thin the rows, cook the tender leaves and stems. They're grand eating.

Purple Top White Globe

SATEX RECLEANED TESTED FIELD SEEDS

BEAUTIFY YOUR HOME WITH FLOWERS

There can be no greater joy than the planting of your own garden and certainly nothing more fascinating than actually growing from bare and unattractive, but almost any type soil can be rendered suitable. If too heavy, add sand. Peat Moss will improve both light and heavy soils.

There is practically no limit to the beauty that may be built into your home grounds and at very small cost. **PLANT MORE FLOWERS!**

SOIL — A sandy loam is most preferable for flowers, but almost any type soil can be rendered suitable. If too heavy, add sand. Peat Moss will improve both light and heavy soils.

SOWING — After soil has been prepared, sow seed carefully either in rows or broadcast as you have decided, then **COVER LIGHTLY**. As a general rule most seeds are covered to a depth not exceeding four times the thickness of the seed. **DO NOT COVER SEED TOO DEEP** as they may not be able to come up. After covering **PRESS SOIL FIRMLY** with plank or flat side of hoe. Very small seeds should be sown on the surface of soil and merely **PRESSED IN**.

STARTING PLANTS INDOORS — Half hardy or tender varieties or even hardy flowers requiring a long season to bloom should be started in boxes for earliest blooms. Procure best soil available, especially rich in humus and plant as previously explained. Place boxes near window where sunlight may reach them but do not let inside room temperature

get so high as to make plants grow rank and spindly. Keep soil moist but not wet. When three or four leaves have formed, transplant one inch apart in boxes or in open ground, if warm enough. Before setting plants in garden "harden off" by placing boxes outside on mild days until they are able to stand the weather without injury.

CULTIVATING — As soon as growth commences cultivate between rows and near plants to conserve moisture and permit the entrance of air but above all keep down weeds with which can truly be called the robbers of the soil. Cultivate deeply at first and then gradually more shallow as plants get larger so their roots may not be injured.

WATERING — The best and safest time to water is early in the morning or in the evening. The roots of plants may be irrigated at any time of the day. Remember that one thorough soaking will do more good than many scanty sprinklings.

Balsam - Or Lady Slipper

BALSAM

(LADY SLIPPER)

Grows 18 inches to 2 feet tall, producing an abundance of brilliantly colored flowers. This plant also known as old-fashioned Touch-Me-Not.

DOUBLE CAMELIA MIXED

Pkt. 10c; oz. 50c postpaid.
ROSE FLOWERED— Double flowers, all colors. Pkt. 5c; oz. 50c, postpaid.

ASTER-QUEEN OF THE MARKET

AFRICAN DAISY

Dimorphotheca — Showy annuals from South Africa, about 1 ft. tall with gorgeous, daisy-like blooms during summer and fall. They vary in color from pure white to red and bluish sulphur, lemon and bright golden yellow, light orange, reddish yellow and pale salmon-rose. Pkt. 10c; oz. 75c.

AGERATUM

(FLOSS FLOWER)

Perennial. One of the best summer blooming plants grown from seed. Rapid growers, early and constant bloomers. During the hot, dry summer months their bright flowers are produced in the greatest profusion. Set the dwarf sorts 10 inches apart and they soon make a low mass of charming flowers.

MEXICANUM TALL BLUE — Light blue; about two feet high. Pkt. 10c; oz. 50c.

ALYSSUM — SWEET

A hardy annual used for borders and edging, comes early in the spring, covering itself with clusters of flowers.

LITTLE GEM (Carpet of snow) — A beautiful white sort for borders. Plants grow about 6 inches tall, produces an abundance of flowers. Pkt. 10c; oz. 50c.

AMARANTHUS

Tall, vigorous ornamental foliage plants, with showy flower clusters, which attain their finest coloring in hot, sunny locations. Rich soil increases the size of leaves at the expense of their color. Give plenty of room.

MOLTEN FIRE 3 ft. Brilliant Poinsettia-like tips. Pkt. 10c; oz. \$1.35.

ARCTOTIS (African Daisy)

NEW HYBRIDS 8-12 inches. A new race of African Daisies rivaling in size and variety of coloring the famous Gerberas, which they closely resemble, but much easier to grow in the garden. Flower 2½ to 3 inches; likes a dry, sunny location. Excellent as a border plant and fine for cutting. Pkt. 10c; oz. \$5.00.

ASTERS (Wilt Resistant)

For early flowering, seed should be planted in hot beds in December and January, then transplanted as soon as danger of frost is over.

QUEEN OF THE MARKET — This is a good type for bedding, and also makes fine cut flowers. Plant grows about 15 inches high and produces beautiful double flowers in many colors, carried in long, slender, graceful stems.

CRIMSON — Pkt. 10c; oz. \$1.25.

LIGHT BLUE — Pkt. 10c; oz. \$1.25.

PEACH BLOSSOM — Pkt. 10c; oz. \$1.25.

WHITE — Pkt. 10c; oz. \$1.25.

MIXED — Pkt. 10c; oz. \$1.00.

ASTER-SINGLE CHINENSIS

RAINBOW MIXTURE — Plant 1½ to 2 feet tall flowers daisy-like, petals wide and closely placed, blooms in late August. Rainbow mixture. Pkt. 10c; oz. 65c.

Arctotis — African Daisy

Calendula - Campfire

BLUEBONNET

(TEXAS)

(Lupinus Texensis)

A The Texas State flower. Grows all over the prairies of Texas. As the seeds are very hard, puncture each seed with a sharp needle and soak overnight before planting. They bloom in Texas in March, April and May. After maturing seed, the plant dies and the seed falls on the ground and comes up again the next spring. Price, pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.50.

CALENDULA

SENSATION — (Campfire) Enormous, double, flat brilliant orange flowers with a crimson or scarlet sheen produced on long stems. The finest orange Calendula. Pkt. 10c; oz. 65c.

BALLS GOLD — Similar to Campfire but a rich lemon-yellow. Pkt. 10c; oz. 60c.

PASTEL BEDDING MIXTURE — Contains all of the delicate shades of calendulas. Pkt. 10c; oz. 35c.

CHRYSANTHA — Pure golden yellow with long, broad petals. Resembles a Japanese Chrysanthemum. Fine for cutting. Pkt. 10c; oz. 35c.

CANTERBURY BELLS

These old-fashioned favorites are much admired for their beautiful, large, bell-shaped flowers in shades of white, rose, and blue. Very showy in mixed borders. Height 2 feet. Pkt. 10c; oz. 60c.

CANDYTUFT

Bushy little plants with charming, clustered heads of daintily colored flowers. They furnish your beds and borders with masses of colors and bring to you the first cheery message of spring. Highly prized for cutting. Height 1 foot.

GIANT WHITE HYACINTH FLOWERED—This is an extra select strain of Candytuft, with enormous trusses of white blossoms, especially desirable for cutting. Grows about 18 inches high. Pkt. 10c; oz. 50c. Postpaid.

UMBELLATA—Finest mixed. Pkt. 5c; oz. 20c.

UMBELLATA—Rose Pkt. 10c; oz. 35c.

UMBELLATA—Lavender. Pkt. 10c; oz. 35c.

UMBELLATA—Rose Cardinal Pkt. 10c; oz. 40c.

UMBELLATA—Purple Pkt. 10c; oz. 35c.

Carnation

CARNATION

Carnations are general favorites for their delicious fragrance and richness of color. They are indispensable both for greenhouse culture in winter and for the garden in summer; sow in the fall.

CHABAUD'S GIANT—Will come into bloom six months from seed and continue to bloom all summer; they form from 10 to 20 stalks bearing huge flowers of fine form.

Dark Red, pkt. 10c; ¼ oz. 70c.

White, pkt. 10c; ¼ oz. 75c

Deep Rose, pkt. 10c; ¼ oz. 75c

Salmon Rose, pkt. 10c; ¼ oz. 50c

Mixed, pkt. 10c; ¼ oz. 60c.

CASTOR BEAN

RICINUS — The large ornamental variety. Pkt. 5c; oz. 15c.

CLARKIA

The lovely Clarkias are effective in the garden or as cut flowers in the home. Great spikes of double and semi-double flowers in the daintiest colors are produced from the poorest soil. Plant in shade. Does best in sections where summers do not get too hot. If the roots are confined by growing in small pots, they will bloom earlier. Elegans Double Mixed Pkt. 10c; oz. 75c.

CLEOME

1942 ALL AMERICAN SELECTION

PINK QUEEN—This beautiful Spider Plant grows recklessly from Maine to Florida and west to the Pacific. It is never out of bloom. A tall and attractive border plant with large heads of delightful and refreshing pink flowers without a trace of blue or magenta. The large flower tracts turn to white before falling giving the appearance of a white collar with a pink cap. Well branched, airy foliage, blooming from June until frost. 4 feet tall. Pkt. 10c; oz. \$1.25.

COCKSCOMB

(Celosia Cristata)

An old and picturesque class of plants having colored foliage gracefully arranged like plumes and sometimes more dense, like a cock's comb.

DWARF GIANT EMPRESS—This beautiful dwarf plant has bronze leaves and forms very large, crimson combs; height usually about one foot. Pkt. 10c; oz. \$1.50.

DWARF GIANT MIXED — All colors mixed. Pkt. 10c; oz. 40c.

PLUMOSA—Finest mixed. Choice mixed of many types. Pkt. 10c; oz. 45c, postpaid.

COLEUS

Large leaved (12 inch). These are the ornamental "foliage" plants so well adapted for growing in the house in winter. They can also be transplanted outdoors when the weather is warm, and for borders or window boxes in partial shade they are unexcelled. The leaves are of many shades and combinations of green, red, and yellow. Pkt. 10c; oz. \$6.00.

COLUMBINE

(Aquilegia)

Long-spurred Hybrids, Mixed. — Graceful perennials producing their odd-shaped long-spurred flowers on tall slender stems. They delight in a partly shaded location. Highly rated as a cut-flower and fine for mixed perennial borders. Height 2¼ feet. Pkt. 10c; oz. \$2.25.

COREOPSIS

MAYFIELD GIANT

On long graceful stems these plants bear large daisy-like flowers with broad fluted petals. In color they are a rich, glossy chrome yellow. They bloom without interruption for a long season and are brilliant in the garden as well as for cutting. Pkt. 10c; oz. 45c.

CORN — ORNAMENTAL

RAINBOW MIXTURE—The ears are used in making chains or pet's strings. The kernels are various bright colors. Pkt. 10c; oz. 15c.

COSMOS

Hardy and fast growing. Plants 3 to 5 feet high, with feathery green foliage, producing in a variety of colors, single and double flowers on long, graceful stems. This is one of the best flowers to grow for cutting.

SENSATION—Finest Mixed. A tall, feathery, green stalk, bearing daisy-like flowers in all shades of lavender, pink, and white Blooms all summer. Pkt. 10c; oz. 75c. Postpaid

EARLY DOUBLE CRESTED (3 ft.). Some of the flowers have attractive, raised, central crests of small petals which completely cover the discs. Pkt. 10c; oz. \$2.50, postpaid.

Columbine or Aquilegia

CORN-FLOWER

(DOUBLE)

Sometimes called Corn Flower or Bachelor's Button. This is an old-fashioned, hardy annual and still a great favorite for cutting purposes. Are very easily cultivated; the seed should be sown in the spring where they are to remain; thin out to 3 or 4 inches.

SNOW MAN — A new variety, absolutely pure white and very durable; splendid as a cut flower. Pkt. 10c; oz. 30c.

BLUE BOY — A pleasing shade of blue, much prettier than the single kinds; height 2 to 3 feet. Pkt. 10c; oz. 30c.

PINKIE — Beautiful bright pink shade. Pkt. 10c; oz. 30c.

RED BOY — A bright red. Pkt. 10c; oz. 30c.

JUBILEE GEM — Dwarf Blue. Pkt. 10c; oz. \$1.25.

DOUBLE MIXED — All colors. Pkt. 10c; oz. 25c.

Coreopsis

CYNOGLOSSUM

AMABLE, CHINESE FORGET-ME-NOT—Produces long sprays of brilliant blue Forget-Me-Not like flowers. Grows easily and blooms for a long season. A most delightful addition to our list of blue flowers. Pkt. 10c; oz. 40c.

DAHLIAS

Most flower lovers plant Dahlia Roots as they do not know that beautiful blooms can be successfully produced the same season from seed. There is real fascination in growing Dahlias from seed, as new varieties are originated in this manner.

UNWIN'S DWARF GIANT MIXED—A small dwarf Dahlia growing to a height of 12 to 15 inches. A free bloomer, which makes it an excellent bedding plant. Easily grown from seed.

Pkt. 10c; ½ oz. \$3.00.

EXHIBITION MIXED — Cactus Flowered
Pkt. 10c; oz. \$3.50.

DELPHINIUM

The Chinese Delphinium blooms from seed the first year if sown early and may be treated as an annual; though it is a hardy perennial and plants will last many years. Fine for beds and border masses. Tall finest mixed. Pkt. 10c; oz. \$1.00, postpaid.

CAMBRIDGE BLUE—Azure Blue. Pkt. 10c; oz. \$2.25.

LIBERTY LARKSPUR—Dark Blue. Pkt. 10c; oz. 60c.

FINEST MIXED—pkt. 10c; oz. 60c.

DOUBLE DAISY- ENGLISH

Bellis Perennis — These jolly little flowers are popular because of their bright color, their profuse long blooming period, and their dwarf compact growth. Pkt. 10c; oz. \$1.00, postpaid.

FEVERFEW (MATICARIA)

(Double White Feverfew)—Sometimes called button chrysanthemums and is a member of the mum family. Dozens of the small blooms are borne on a single stem of the plant and a few stems with a bit of fern will make a beautiful centerpiece. Grows 18 inches high. Pkt. 10c; oz. 75c.

FOUR O'CLOCK (MARVEL OF PERU)

A hardy annual, about two feet high of the easiest culture. Mixtures of all colors. Sow in early spring. Pkt. 10c; oz. 25c.

FOXGLOVE — Digitalis

The flowers are shaped and finely mottled like gloxinias. Do well in sun or half shade, bloom in June and July. Splendid for beds or border. 3 to 4 feet tall. A wealth of brilliant color with little attention. Pkt. 10c.

GAILLARDIA

GAILLARDIA (Blanket Flower) Tones of orange, yellow, red, and maroon, often beautifully combined in a single blossom, make these flowering plants gay ornaments of the garden all summer long. The foliage of soft green combines well with the flowers. The blossoms are 2 to 3 inches across. Both the annuals and perennials are favorites for the border. Pkt. 10c; oz. 60c.

GAZANIA

SPECIAL MIXTURE—Beautiful daisy-like flowers, 2½ to 3 inches across. Includes all shades of orange and yellow, with some very striking center and zone colorings. 6 to 8 inches. Pkt. 10c; oz. \$2.75.

GERANIUM

This variety is very desirable for pot culture, flower boxes and bedding outdoors. Seed should be sown inside house in pots or boxes on rather light soil and should be kept moist. Seed is slow to germinate.

ZONALE MIXED — Pkt. 10c; oz. \$3.50.

Gerbera

GERBERA

(Transvaal Daisy) South African flower of unusual daintiness. The colors range from pale amber through salmon and rose to a rich ruby. Pkt. 10c; 1000 Seeds \$4.00.

GEUM

GEUM—Flowers like little double roses are poised on long stems over a thick rosette of strawberry-like leaves. Well suited for use in the perennial border and for bouquets. Pkt. 10c; oz. \$1.50.

GODETIA—Upright Single

GODETIA

An attractive hardy annual, deserving more extensive cultivation. The plants bloom profusely and bear showy flowers of satiny texture in many rich and varied colors. They do best in a rather poor soil.

DUKE OF YORK—Rich scarlet on white. Pkt. 10c; oz. 60c.

DOUBLE CHERRY RED—Bright red. Pkt. 10c; oz. 40c.

SYBIL SHERWOOD—Bright salmon pink. Edged soft white. Pkt. 10c; oz. 75c.

TALL DOUBLE MIXED. Pkt. 10c; oz. 45c.

GLOBE-AMARANTH

(GOMPHRENA)

A low-growing hardy annual. Everlasting or Straw Flower, about 8 inches high with globe-shaped flowers, in red, pink, white, and purple or orange. Mixed. Sow in the spring. Pkt. 10c; oz. 25c.

RED —Pkt. 10c; oz. 40c.

PINK —Pkt. 10c; oz. 40c.

WHITE—Pkt. 10c; oz. 40c.

GOURDS

Ornamental Gourds are very interesting climbers producing fruits of various shapes and marking. A coat of shellac applied to the matured fruits will add to their beauty, making attractive ornaments for house decorations through the winter. This old-fashioned vine grows 15 to 20 feet high.

SMALL VARIETIES MIXED—Pkt. 5c; oz. 25c.

GYPHOPHILA

(BABY'S BREATH)

Delicate free-flowering plants covered with star-shaped flowers, valuable for mist-like effect and as trimming in bouquets; also for hanging baskets or edgings.

Paris Market — White --- Pkt. 10c; oz. 25c.

Rosea — Light Pink ---- Pkt. 10c; oz. 30c.

HELICHRYSUM

MONSTROSUM FINEST MIXED—An array of color that will please. These are classed by many as the best and most satisfactory of the Everlasting flowers and make beautiful dry bouquets. Pkt. 10c; oz. 50c.

HELIOTHOPE

Heliotrope is a universal favorite on account of its delightful fragrance and duration of bloom, flowering equally well as bedding plants in summer, or as pot plants in the house during the winter. Seeds sown in the spring make fine plants for bedding out, and are as easily grown as Verbenas. Pkt. 10c; oz. \$1.25.

HOLLYHOCK

Chaters Double Mixed — Splendid background for flower gardens; shows up well along fences; bears open rose-shaped flowers; mixed. Pkt. 10c; oz. \$1.50.

HUNNEMANNIA

(MEXICAN TULIP POPPY)

Grows anywhere but does best in a well-limed, rather sandy soil. Blooms from July until frost. The yellow, poppy-like flowers are excellent for vases when cut while in bud. Pkt. 10c; oz. 60c.

LANTANA

Popular, free-blooming and very rapid growing, with flower heads of various colors, which are continually changing; emits a powerful aromatic perfume. Plants are completely loaded with blossoms, succeeded by berries which, when ripe, turn deep blue.

MIXED—Pkt. 10c; oz. 75c.

VITAMIZE YOUR ENTIRE GARDEN
Lawns • Flower-beds • Trees • Shrubs

IN A FEW MINUTES
with THOMPSON'S new

B-1 VITAMIZER

**No Back Breaking Watering Can
No Drudgery—No Tedious Measuring**

Just place from one to six Thompson's Vitamin B1 Pellets in Thompson's new B1 VITAMIZER—inset in any standard garden hose—and spray B1 solution right through hose nozzle or sprinkler.

With one Thompson B1 Pellet, B1 VITAMIZER applies approximately 25 gals. of the correct solution in just 6 minutes. Up to 150 gals. (with Pellets), applied in comparatively brief periods. Made of brass. Nothing to get out of order. Will last indefinitely.

SPECIAL BARGAIN COMBINATION \$1.89
B1 VITAMIZER (regular price \$1), and 100 Thompson's B1 Pellets, 1 mg. each, making 2000 gals. solution (regular price \$1). B1 VITAMIZER is engineered for use with Thompson's 1 milligram B1 Pellets only.

Larkspur — Giant Imperial

GIANT IMPERIAL LARKSPUR

This new type of larkspur is excellent for cut flowers, as the flower stems are from three to four feet long, branching from the base of the plant and more delphinium-like than the giant-flowering larkspur.

IMPERIAL BLUE SPIRE—This is an intense deep Oxford blue with the upright base branching habit. Pkt. 10c; oz. 70c.

IMPERIAL WHITE KING—A sensation in white larkspurs. Is very double and a dazzling pure white in color. Pkt. 10c; oz. 70c.

IMPERIAL PINK KING—A rich bright rose, flushed salmon, one of the best for all purposes. Pkt. 10c; oz. 70c.

IMPERIAL BLUE BELL—Azure blue. Pkt. 10c; oz. 70c.

IMPERIAL CARMINE KING—Deep carmine rose. Pkt. 10c; oz. 70c.

IMPERIAL MIXED—All colors mixed. Pkt. 10c; oz. 60c.

LINARIAS

(Baby Snaps)

This is a hardy annual with small dainty flowers resembling miniature Snapdragons and in addition each flower has a long Columbine-like spur. It makes a nice cut flower and the clumps form an interesting feature of the annual border. Blooms in about eight weeks from seed. To get the best results seed should be sown thinly, the seedlings thinned out to about 18 inches. Pkt. 10c; oz. 90c, postpaid.

LUPINES

HARTWEGI GIANT—The hybrids are a treasure throve of color reaching in height from 2½ to 3½ feet with immense spikes of color ranging from the light shades of pink, salmon, and blue to the deeper colors of dark red and purple. These Perennials are very easily grown and should be in every flower garden. Chip or notch the seeds for quick germination. Pkt. 10c; oz. 25c, postpaid.

MEXICAN FIRE BUSH (KOCCHIA)

CHILDSH—2½ ft. It resembles a close-clipped ornamental evergreen. The pyramidal bushes are close and compact and of a pleasing light green. The plant may be grown singly or in the form of a hedge or background and may be clipped to form a perfect substitute for boxwood to edge beds. In early autumn the whole bush becomes carmine or bloodred. Flowers small and numerous but not conspicuous. Pkt. 10c; oz. 20.

MARIGOLD

Tall Double Orange—A beautiful flower of gigantic size: a very bright orange color, plant usually growing about 2 to 3 feet high. A very popular sort. Pkt. 10c; oz. \$1.50.

Tall Double Lemon—A lemon shade that is beautiful. Pkt. 10c; oz. \$1.50. Mixed colors: Pkt. 10c.

GIGANTEA (Sunset Giants)—The largest marigold yet developed, many flowers averaging 5 inches in diameter. The definite sweet scent of the flowers adds to its value, as a cut flower. The color range includes deep orange, golden orange, deep golden yellow, light yellow and a delightful new shade of primrose. Height of plants, 3 to 4 feet. Pkt. 10c; oz. \$3.00.

Yellow Supreme—Rich lemon-yellow. Large, fluffy blooms of broad, frilled petals. Pkt. 10c; oz. 50c.

DWARF FRENCH

DOUBLE MONARCH-MIXED

A fine mixture, having a wonderful lot of colors in it. Pkt. 10c; oz. 50c.

DWARF DOUBLE HARMONY HYBRIDS

The compact plants are 12 to 14 inches in height, 100% all double and flowering commences about 2½ months after seed sowing. One of the earliest of all marigolds. Flowers are of medium size averaging 1 ¾" in diameter and do not have the strong marigold odor. The color range, a distinct golden yellow, golden orange and innumerable blotched and striped combinations of golden orange and yellow with maroon. Crested centers. Pkt. 10c; oz. 45c.

GUINEA GOLD—2 to 2½ ft. The original carnation-flowered type producing flowers 2 to 2½ inches across, of brilliant orange flushed with gold. Practically 100% double. The characteristic Marigold odor is less pungent. This is an early flowering sort. Pkt. 10c; oz. 50c, postpaid.

HARMONY—A remarkable break which differs from others in habit, shape, and coloring. Flowers, in form suggesting a Scabiosa, are a bright golden-yellow bordered with a rich maroon-red. The plants being about 12 inches high, and very bushy habit, form excellent material for bedding. Pkt. 10c; oz.

NASTURTIUM

Semi-Double Sweet Scented Glean

Giant, double, sweet-scented flowers of gorgeous new colors. Individual blooms are of immense size and produced on long, stiff stems. They are excellent for cutting as well as for garden decoration.

SCARLET GLEAN—Dazzling fiery orange-scarlet color. Pkt. 10c; oz. 15c.

GLEAN HYBRIDS—New colors, never before dreamed of in double Nasturtiums. Salmon, golden yellow, orange-scarlet, cerise, cream-yellow, orange, and crimson, all delightfully scented. Pkt. 10c; oz. 15c.

GOLDEN GLEAN—Large, semi-double, golden yellow flowers averaging 3 inches across. Pkt. 10c; oz. 15c.

SALMON GLEAN—Delicate golden salmon. Pkt. 10c; oz. 15c.

APRICOT GLEAN—Double flowers of primrose overlaid with a soft salmon pink suffusion combining into a most pleasing light apricot. Pkt. 10c; oz. 15c.

FIESTA GLEAN—Golden yellow flowers with red blotches. Pkt. 10c; oz.

MAHOGANY GLEAN—Large flowers with a rich deep mahogany color. Pkt. 10c; oz.

DWARF DOUBLE GEM

Extra Dwarf & Compact Strain
CHERRY ROSE—A bright cherry rose color. Pkt. 10c; oz. 20c.

DOUBLE GEM MIXED—A mixture of all the best and richest colors. Pkt. 10c; oz. 15c.

TALL SINGLE MIXED—The choicest colors of all the Tall Nasturtiums. Pkt. 10c; oz. 15c.

Marigold — Gigantea Sunset
NEMOPILA — (Baby Eyes)

Hardest of annuals. Lovely cup shaped, sky-blue flowers with white centers. 6 inches tall. Pkt. 10c; oz. 30c.

NIERMBERGIA

Hippomanica—Grows not more than 4 to 6 inches high forms a cushion of elegant light green foliage from which emerge corymbs of salver shaped flowers of a delicate lavender hue 1 to 1½ in. across, adorned with a clear yellow eye. Blooms the entire summer. Pkt. 25c.

Nierembergia

PURPLE ROBE—Similar to Hippomanica, except that the color is a very fine deep violet purple shade and will maintain its color even in the full sun and does not fade even in the hottest climate. Seed should be started in flat. Pkt. 25c.

PANSY

GIANT TRIMARDEAU—Flowers are well formed, of enormous size, in a great variety of colors, the very finest strain. Finest mixed. Pkt. 10c.

MAPLE LEAF GIANTS—Compact habit with large attractive foliage and very large blooms of heavy substance. Colors include both light and bright shades and those rich velvety dark colors which are typical of pansies. Pkt. 10c; oz. \$9.00.

GENEVA GIANTS—Plants exceptionally strong and robust with flowers unusually large, perfectly round, with overlapping petals of heavy substance. Pkt. 10c; ¼ oz. \$2.75.

PENSTEMON

GLOXINIA MIXTURE—If sown in heat in February or March, they will flower freely the first year, producing large spikes of handsome Gloxinia-like flowers. Often 2 in. across and in the most brilliant and varied colors many of which are beautifully edged with a fine contrasting color. 2 ft. Pkt. 10c; oz. \$2.50.

PETUNIA

Their richness of color, duration of bloom and easy culture will always make them popular.

Petunia

DELUX BEDDING MIXTURE — Large flowered dark sorts. Pkt. 10c; oz. \$2.00.

Choice Mixed—Pkt. 10c; oz. 75c.

ALL DOUBLE GIANT FRINGED — The plants are remarkably uniform in habit, producing a wide assortment of brilliant and fancy colors. They produce very large, well fringed, fully double flowers and are extremely floriferous. Pkt. 50c.

GENERAL DODDS — Bloodred. Pkt. 10c; oz. \$1.00, postpaid.

ROSE KING—Rich rose white throat. Pkt. 10c; oz. \$1.00, postpaid.

VIOLACEA—Deep violet. Pkt. 10c; oz. \$1.20, postpaid.

GIANTS OF CALIFORNIA
RUFFLED MIXED—Pkt. 25c; ¼ oz. \$7.50, postpaid.

HYBRIDA PENDULA MACULATA —Large flowered and semi-ruffled. Colorings are delicate toned from a purple white base to spots of deep rose red on the outer fringe. Has an open golden yellow throat with exquisite vein markings. Pkt. 10c; oz. \$7.50.

PHLOX

DRUMMONDI — Grandiflora — This hardy annual is unequalled for the magnificent display of brilliant colors when used in beds. Will thrive in most any soil. Grows from 6 to 12 inches high. Mixed, Pkt. 10c; oz. \$2.50.

WHITE—Pkt. 10c; oz. 2.75, postpaid.

CINNABAR — Red-dazzling scarlet vermillion. Pkt. 10c; oz. \$2.75.

CHAMOIS ROSE—Light rose pink. Pkt. 10c; oz. \$2.75.

VIOLET BLUE—Pkt. 10c; oz. \$2.75.

STAR—Choice mixed. Pkt. 10c; oz. \$2.50.

PINKS OR DIANTHUS

PHLOX

Gigantea Art Shades—A new strain with flowers 1½ inches in diameter, in a remarkable variety of soft color tones, which blend delightfully. Pkt. 10c; oz. \$2.75.

PORTULACA

(MOSS FLOWER)

One of the best low-growing annuals for hot and sunny places; will grow and bloom profusely in the summer time when other flowers are dead. Sow after all danger of frost is over.

DOUBLE MIXED — Pkt. 10c; oz. \$3.00

PYRETHRUM

Snowy, golden-leaved annuals; fine for borders and edging. Height 1 foot. Sow in open ground from March until May. Pkt. 10c.

Salpiglossis

(Painted Tongue) Large Flowered—From a low base of leaves rise slender wiry stalks which bear one or more large lily-like flowers in a magnificent range of colors. The gold veining of their deep throats is often pronounced and adds to their beauty. A great favorite in the open and for cutting. Mixed Pkt. 10c; oz. \$1.00, postpaid.

Salpiglossis

SUNBEAM HYBRID—A remarkable new giant flowered Iceland Poonny which is excellent for cutting. The flowers are large and well formed with broad petals which are deeply fluted and wrinkled giving an effect of semi-doubleness. Comes in shades of pink and salmon rose. Will bloom the first season if planted early from seed. Pkt. 10c; oz. \$1.50, postpaid.

QUEEN ANNE LACE FLOWER

QUEEN ANNE LACE FLOWER (White) — A slender erect plant, with feathery fern-like foliage and small flowers clustered at the ends of the stalks. Very showy in mixed bouquets. Pkt. 10c; oz. 50c.

SALVIA

(SCARLET SAGE) **SPLENDENS**—Flowering sars, is a very ornamental plant, flowering in spikes of a rich red color. Pkt. 10c; oz. \$3.75.

SCABIOSA (Mourning Bride)

PIN CUSHION ASTER—Magnificent hardy; of easy cultivation; blooms freely during summer and fall; stands hot, dry summers better than almost any other flower. Flowers are large, very showy, on stalks 1½ to 2 feet high; very decorative for beds, invaluable for cutting. Pkt. 10c; oz. 35c.

BLUE MOON—This new type has flowers composed entirely of broad heavy, wavy petals, eliminating the pincushion center, which characterized the old type of Scabiosa entirely thus the flower is literally fully double. The color is a rich deep lavender blue measuring 2½ inches across and 2¼ inches deep borne in long wiry stems which make them excellent for cutting. Pkt. 25c; ¼ oz. \$1.00; oz. \$3.50.

SCHIZANTHUS

SCHIZANTHUS (Poor Man's Orchid) — Myriads of dainty blossoms like butterflies or tiny orchids crowd these delightful plants. The seed germinates readily, and the plants start flowering within a few weeks. They are fine for picking. Pkt. 10c; oz. 40c.

Scabiosa, Imperial Giant - Blue Moon

PINKS OR DIANTHUS

The family of Pinks is unrivalled for brilliancy and rich variety of color. The plants are bushy, of symmetrical form, blooming profusely until fall, rendering them very satisfactory for summer varieties.

CHINESE DOUBLE MIXED—This is a double annual sort of beautiful colors. Pkt. 10c; oz. 35c.

SWEET WIVELSFIELD—A new, very hardy annual that does exceptionally well here. Fine for borders and exceptionally good for cut flowers. Can also be used to a good advantage in rock gardens. Pkt. 10c; oz. 60c.

POPPIES

Should be planted in late Fall or very early in the spring, as in our section they burn out as Summer comes on.

CALIFORNIA POPPY—Eschscholtzia — A very beautiful annual with finely cut, feathery foliage, having a velvet, cup-shaped flower. All colors mixed. Pkt. 5c; oz. 75c.

SHIRLEY MIXED—This is a beautiful type of satiny flowers with a wide range of colors. Pkt. 5c; oz. 25c.

SHASTA DAISY

A splendid hardy variety with flowers rarely less than 4 inches across, of the purest glistening white with yellow center, broad, overlapping petals and borne on long stems. A beautiful cut flower, remaining in good condition a week or more.

CONQUEROR—Flowers very large, pure white, stems about 2½ to 3 feet long. Pkt. 10c; oz. \$1.25.

DIENERS DOUBLE—Flower double very large, pure white, stems about 2½ to 3 feet long. Pkt. 25c; ¼ oz. \$4.00.

Antirrhinum or Snapdragon

ANTIRRHINUM OR SNAPDRAGON

Snapdragons are very hardy and easy to grow and produce an abundance of flowers from the time they begin blooming in the Spring until frost. They are among our most popular flowers and are especially desirable for cutting. We carry only the best Rust-proof Strains.

MAXIMUM GRANDIFLORUM RUST-PROOF—This is the newest creation in Giant Snapdragons and is a marked advance over the old type in size and brilliancy of color and is immune to rust.

Christmas Candle — Bright flame color, tube waxy cream. Pkt. ¼ oz.

Paradise Rose — Deep rose pink. Pkt. 10c; ¼ oz. 75c.

Copper Queen — Velvet copper scarlet. Pkt. 10c; ¼ oz. 75c.

Alaska (Snowflake) — white. Pkt. 10c; ¼ oz. 75c.

Canary Bird—Golden yellow center. Pkt. 10c; ¼ oz. 75c.

Crimson King—Fiery Crimson. Pkt. 10c; ¼ oz. 75c.

RUST-PROOF MIXED — Contains wonderful range of all the most popular colors. Pkt. 10c; ¼ oz. 60c

DWARF RUST PROOF MIXED — Grow about 18 in. tall. Many beautiful shades. Pkt. 10c; ¼ oz. 50c.

STATICE (Sinuata)

Our annual Statice is not only a beautiful flower in the border, but dries retaining its true colors, which are rare among everlasting, and have come to be indispensable in making winter bouquets.

SWEET WILLIAM

Beautiful flowering plants; produces a splendid effect in borders and beds with its rich and varied flowers; **DOUBLE MIXED**—Perennial. Pkt. 10c; oz. 90c.

SWEET PEAS

STANDARD SUPERB SPENCER — Sweet Peas will grow and blossom in any good garden soil. For best success sow early, in the fall or winter. Sow in trenches about 4 inches deep, covering the seeds about 1 inch, and fill in the trenches as the plants grow.

MISS CALIFORNIA — salmon cream pink.

BRIDAL VEIL — large pure white (black seed.)

CAPRI — clear silver blue.

BEGONIA ROSE — velvety begonia rose, duplexed.

CRONY — soft golden salmon.

BONNIE BRIAR — large rose pink.

FLORA — clear deep lavender.

LADY MACBETH — dazzling spinal red.

RUBICUND — crimson scarlet.

GRAND NATIONAL — Rich Cream.

SUPERB SPENCER MIXED—balanced mixture of many varieties.

FANTASY MIXED — veined and mottled varieties.

Prices on above: pkt. 10c; oz. 25c; excepting Superb Mixed, which are: pkt. 5c; oz. 15c.

EARLY FLOWERING SPENCERS—This type of Sweet Pea deserves more attention from the home gardener. They come into bloom from four to six weeks earlier than the standard varieties and are well into flower before the dry summer weather begins. The flowers are equally as large as the standard Spencers with long stems and are beautifully ruffled.

BACCHUS — duplex violet-carmine.

BOON — deep salmon pink.

COLLEEN — rose suffused with gold.

EILEEN — rich begonia rose.

HOPE — mammoth pure white.

SUSSANA — carmine red.

TOP HAT — deep velvety violet blue.

BRIDESMAID — a sparkling shade of deep silvery pink.

FRAGRANCE — clear lavender.

RAMONA — an exquisite shade of geranium pink.

SEQUOIA — an enormous rich golden cerise pea.

IRIS BLUE — broad wavy, deep iris blue.

TITIANA — mammoth deep rose self.

TREASURE ISLAND — very large golden orange.

AZALEA PINK — True Azalea pink color.

EARLY MAGIC — Chinese Violet.

EARLY MONTERREY — Geranium Pink.

CHOICE MIXED

Prices on above: pkt. 10c; oz. 30c.

PERENNIAL SWEET PEA

These are useful for covering walls, stumps or trellises. The large clusters of flowers are not fragrant like ordinary Sweet Peas. The plants will live for years. Fine for cut flowers. Mixed Pkt. 10c; oz. 45c, postpaid.

Statice

Sweet Peas

SPRING FLOWERING SWEET PEAS

A new class of sweet peas. They do even better under hot summer conditions than the Early Flowering variety. Tremendous vine growth. Extra long stems, with loads of blossoms with exquisite colors. Don't fail to pick some of these colors when planting your spring garden.

BLUE	— Pkt. 10c; oz. 35c.
LAVENDER	— Pkt. 10c; oz. 35c.

MIXED	— Pkt. 10c; oz. 40c.

FOR MORE BEAUTIFUL LUXURIANT SWEETPEAS AND LUPINES and FOR GREATER YIELDS OF LUSCIOUS GARDEN PEAS AND BEANS Inoculate with

NITRAGEN

10c package will inoculate 6 pounds of GARDEN PEAS, BEANS, SWEET PEAS OR LUPINES

Tithonia

TITHONIA

(Mexican Sunflower) — It is perennial and can be planted outdoors spring or fall. The flowers of vivid orange-scarlet are 3 or 4 inches across. The leaves have an odd appearance as though they had been cut into irregular patterns with scissors. Pkt. 10c; oz. \$2.50, postpaid.

FIREBALL — Dazzling scarlet orange. Pkt. 10c; or. \$3.00.

SLOW PERENNIALS

Some perennial seeds are slow to germinate, so if the seeds don't sprout within a week or so, don't be worried. That is, don't be worried if you have faithfully followed directions.

Tritoma

TRITOMA

RED HOT POKER—Very handsome and showy border plants. Flowers borne in compact form on stout 3 and 4 ft. stems having the appearance at a distance of orange and red colored spear heads. Require protection during winter, unless in a very sheltered position. Pkt. 10c; oz. \$1.50, postpaid.

VERBENAS

Very popular for massing in beds and flower boxes. Start blooming in early spring until late summer. Sow seed in January in boxes.

Gigantea Scarlet—Lucifer	Pkt. 10c; oz. \$1.25

Hybrida Mixed	Pkt. 10c; oz. 1.00
Lavender Glory — Lavender	
Cream Eye	Pkt. 10c; oz. 2.50

VENIDIUM

(Monarch of the Veldat)

Fastuosum Hybrida — 2 - 3 ft. A new race with colors from pure white through ivory, yellow and buff set off by glistening black centers with maroon markings at base of petals. Pkt. 10c; oz. \$2.50.

VINCA (Periwinkle)

Highly ornamental, free-flowering, compact evergreen shrubs, with shining green foliage and handsome circular flowers. 18 inches high.

PURE WHITE—Beautiful pure white.

ROSEA—Rose, with crimson eye.

MIXED—

VIOLA

(Johnny Jump Up)

Beautiful small flowers that are very similar to Pansies. The blooms are not as large as those of the regular pansies, yet they bloom more freely. Pkt. 10c; oz. \$2.25.

SATEX CALIFORNIA GROWN ZINNIAS

CALIFORNIA GIANT ZINNIAS

or Mammoth Special Florist's Strains

The great advantage of this type is that the very large flowers are of enormous size and flat, getting away from the conical type of the Giants and eliminating the stiffness that has been so objectionable in Zinnias in the past. The flowers from the time they open are attractive, making them a good cut flower from the early bud until they are in full bloom. They are twice the size of the ordinary Giant.

BRIGHTNESS—Light rose, deep rose center.

VIOLET QUEEN—Deep Lavender.

ORANGE KING—Cadmium or orange scarlet.

GRENADEUR—Bright dark red.

SCARLET QUEEN—Glowing deep scarlet.

DAFODIL IMPROVED—Canary yellow.

PURITY—Best white.

SPECIAL FLORISTS' MIXTURE —

Pkt. 10c; ¼ oz. 25c; oz. 90c.

FANTASY ZINNIAS

Chrysanthemum Flowered

ZINNIA FANTASY or **CHRYSANTHEMUM FLOWERED**. — Fantasy is the most fascinating new Zinnia type introduced to the flower world in many years. The very informal, shaggy-appearing flowers are graceful and interesting, quite distinct from the still, formal Zinnias to which we are accustomed. The rounded, medium sized flowers are composed of a mass of shaggy ray-like petals which give a delicate and refined appearance.

STAR DUST—Rich deep golden yellow.

ROSALIE—Bright intense rose.

ORANGE LADY—Deep bright orange.

WHITE LIGHT—Pure white.

WILDFIRE—Dazzling scarlet.

FINEST MIXED—A real bright colorful mixture. Pkt. 10c; ¼ oz. 50c; oz. \$1.75.

LILLIPUT OR POMPON

The plants form handsome little bushes and fairly bristle with tiny, short-stemmed, very double flowers hardly exceeding a daisy flower in size. They are very pretty plants; bloom all Summer until late in the Fall.

PURPLE GEM—Lavender.

CANARY GEM—Canary Yellow

GOLD MEDAL DAHLIA-FLOWERED ZINNIAS

The Dahlia-Flowered Zinnia is the latest thing in the Zinnia line and is undoubtedly the most handsome one that has been propagated so far by any grower. They are exceptionally large and the many shades and colors in which they come make them simply indescribable.

EXQUISITE—A light rose, deep rose center.

ORIOLE—Orange and gold bi-color.

CANARY BIRD—Rich canary yellow.

DREAM—Deep rosy lavender.

POLAR BEAR—Large creamy white.

CRIMSON MONARCH—Deep crimson.

SPECIAL MIXTURE—Contains all of the above Dahlia-Flowered Zinnias and others we do not list.

Price on all of the above Dahlia-Flowered Zinnias: Pkt. 10c; oz. 90c.

Zinnia - fantasy

CRIMSON GEM

ROSEBUD—Rose pink

SALMON GEM—Salmon Rose

VALENCIA—Burnt orange

WHITE GEM

SCARLET GEM

PASTEL MIXTURE

TOM THUMB MIXTURE

Pkt. 10c; ¼ oz. 25c; oz. 75c.

ZINNIAS (Continued)

PUMILA DWARF DOUBLE

(Cut and come again)

On bushy plants 18 inches tall, fully double flowers are borne in abundance. The flowers average two inches across, and are held above the foliage on stout stems. They make fine border plants, registering color well, or excellent plants for large pots and tubs. They are also fine cut flowers.

CANARY YELLOW

CRIMSON

GOLDEN ORANGE

PINKIE—Rose pink

SALMON ROSE

SCARLET—Bright scarlet

SNOW BALL—White

Pkt. 10c; ¼ oz. 25c; oz. 75c.

GAILLARDIA FLOWERED

NAVAJO—Dainty double flowers resemble the Picta Double Gaillardias in both form and coloring. Finest mixed. Pkt. 10c; ¼ oz. 35c; oz. \$1.00.

SUPER CROWN OF GOLD

Pastel Tints—NEW

A vastly improved strain of the Crown of Gold type, with large well formed flowers in soft pastel shades; each petal overlaid at the base with deep golden yellow. Pkt. 10c; ¼ oz. 60c; oz. \$1.00.

SCABIOUS FLOWERED

Zinnias resembling the annual Scabiosa and harmony marigold.

FINEST MIXED — Bright shades of all colors. Pkt. 10c; oz. \$1.25.

**HOWARDS GIANT
CRESTED MIXED**

A strain produced by crossing the Dahlia flowered and the Scabious flowered type Zinnias, producing a full rounded cushion center surrounded by broad guard petals with flowers averaging from 4 to 5 inches in diameter. The colors included in the strain are charmingly bright and fresh and contain almost all known colors. Pkt. 10c; oz. \$1.25.

ZINNIA LINEARIS

Plants grow 1 ft. high and are covered throughout the season with deep orange-yellow single flowers, 1½ inches across, each petal having a narrow golden yellow stripe. Pkt. 10c; oz. \$1.50.

LILLIPUT — TOM THUMB

Plant 4"-6". Compact covered with well formed flowers of the Lilliput type. Colors range through red, orange, yellow, pink, rose and other pastel shades. Excellent for pot plant and border use. Finest mixture. Pkt. 10c; oz. \$1.00

CLIMBING VINES

We have listed below the best climbers for porches and trellises for our section.

CYPRESS VINE

A most beautiful rapid climber with delicate, dark green leaves and many bright star-shaped flowers.

MIXED COLORS—Pkt. 10c.

GOURDS

So many people desire Gourds where vines are desired quickly and we have made a mixture containing all sorts and types. Ornamental Mixed: Pkt. 10c.

HYACINTH BEANS

(JACK BEANS)

Rapid climber; blooms and pods very ornamental. Colors: White, purple, or mixed. Pkt. 5c; oz. 15c.

MOON FLOWER

WHITE MOONFLOWER (Ipomoea). This is a greatly improved variety of the popular Moonflower vine, producing much larger flowers in a greater profusion, with immense saucer-shaped flowers. Pkt. 10c.

**THE RED, WHITE
& BLUE**

**MORNING GLORY
FOR AMERICAN GARDENS**

As Morning Glory seed are very hard, we advise soaking them in lukewarm water for several hours before sowing.

SCARLETT O'HARA — RED

An entirely new color in this popular garden flower, rich dark wine-red or rosy crimson. While the flowers are not quite as large as the Heavenly Blue Morning Glory, they are of good size, about four inches in diameter, freely produced on fast growing vines which start blooming within 65 days after seed is sown. The combination of Scarlet O'Hara and Heavenly Blue is very pleasing when planted together. Received the Gold Medal. All American Selections 1939. Pkt. 25c; ¼ oz. 60c; oz. \$2.00.

PEARLY GATES — WHITE

White morning glories of superior quality are indeed a rarity. Pearly Gates is a variety so beautiful that it will stand out among a hundred others. The big blossoms average more than four inches across. The vines are unusually vigorous, grow fast and produce a wealth of snowy white trumpets. Pkt. 10c; oz. \$1.25.

CLARK'S EARLY HEAVENLY BLUE—The blooms are a beautiful shade of blue. Its extra early flowering habit makes it particularly valuable in sections where other vines are too late. Our customers will be favorably impressed with it, for it is truly lovely. Pkt. 10c; oz. 90c.

IMPERIAL MIXED — Flowers are the largest of any Morning Glory and of the finest coloring. They have various shades, solid colors and variegated mixed colors. Pkt. 10c; oz. 35c.

MINA LOBATA

Sometimes called the "Flag of Spain." A beautiful climber producing flowers of a brilliant red changing to a pale yellow. Pkt. 10c.

HARDY LILIES

REGALE

REGALE — Large white blooms with canary yellow throat and bluish-white edges. Delightfully perfumed, but not so oppressive as some of the older lilies. June and July. Each, 25c.

Morning Glory — Heavenly Blue

NEW CORNELL

This new Morning Glory has been named Cornell, because it reproduces the colors of Cornell University. Giant carnelian red flowers with a pure white border measuring as much as 3½ inches across, approximately the same size as Heavenly Blue. Pkt. 10c; ¼ oz. 25c; oz. \$1.25

SCARLET RUNNER BEAN

A rapidly growing climber. Has sprays of brilliant scarlet pea-shaped blossoms. May be used as a snap or shell bean for eating purposes or as an ornamental climber. Pkt. 5c; oz. 10c, postpaid.

AUSTRALIAN PEA VINE

Dolichos Lignosus — A rapid growing evergreen climber, flowering freely in clusters of rose pea-shaped flowers. Pkt. 10c; oz. 75c.

SPECIOSUM RUBRUM—White, suffused rose-pink, spotted red. August and September.

TIGRINUM—The Tiger Lily is well known, with its showy spotted red-orange flowers in wayside gardens in August and later.

SUNSET LILY—(Pardalinan Giganteum) — The reflexed flowers which droop on the stalk, are bright orange red with dark crimson spots. Ea. 25c.

AMARYLLIS

The brilliantly colored clusters of great trumpet shaped flowers swaying in the wind remind one of dignified ladies curtsying.

GIANT AMERICAN HYBRID MIXED — Flowers are immense in an amazing range of color blends, splashed and striped in a manner not seen in other strains. Each 45c.

**TIGRIDA PAVONIA
MEXICAN SHELL FLOWERS —**

These triangular flowers are decidedly unique. The three outer petals form a triangular pattern which is repeated in the arrangement of the three smaller petals at the center of the flower. Few more brilliantly colored flowers are to be found than these shell flowers which include combinations of pink, white, lilac, yellow, scarlet and orange, blotched and spotted with shades of crimson and maroon. Usually the stems are 2 to 2½ feet tall and do not require staking. Each.

FANCY LEAVED CALADIUM—The most showy, fascinating and beautiful of all light-colored foliage plants. Highly prized for growing in pots and porch-boxes and do extremely well planted outdoors in the Lower South. Each, 40c.

Satex Prize Winning Dahlias and Gladioli

GLADIOLI BULBS

CULTURE—Spade soil not less than 8 to 10 inches deep. Make your rows 18 to 20 inches apart and set bulbs 4 inches in the ground and 8 inches apart. Cover bulbs with 1 inch of soil, then sprinkle lightly with fertilizer or bone meal, then fill in rest of trench with soil and firm down to eliminate air pockets around bulbs. Thoroughly soak plants when water is necessary. Do not sprinkle as it has a tendency to draw roots up to moisture. Keep cultivating. The more you do the better your plants and flowers.

DR. F. E. BENNET—One of the best scarlets, scarlet throat stippled with ruby and white. Tall and straight, many flowers open at once. Vigorous grower. Doz. 50c, postpaid.

GATE OF HEAVEN—Clear deep yellow. Doz. 60c, postpaid.

DEBONAIR—La France pink to shrimp pink in throat with creamy throat mark, lightly peppered crimson. Doz. 50c, postpaid.

PICARDY—The color is soft pink shading to deeper pink on the lower petals. Distinct markings in throat. Extremely long stems with many enormous size flowers open at the same time. Doz. 50c, postpaid.

BEACON—Salmon-scarlet with creamy throat. Tall spike, eight florets open at once. Doz. 50c, postpaid.

STAR OF BETHLEHEM—A pure white. Doz. 50c, postpaid.

MINUET—Lovejoy light lavender, blotched deeper lavender. Doz. 50c, postpaid.

VAGABOND PRINCE—Iris descent Bronze Red, lighter in upper throat, small flame scarlet, scarlet blotch below. The color combination is very attractive. Doz. 55c, postpaid.

BIT OF HEAVEN—A large pure orange of the grandiflora type. Doz. 55c, postpaid.

BLUE BEAUTY—A dark violet blue. Doz. 70c, postpaid.

MOORISH KING—Immense massive ruffled. Mahogany Red, usually flaked darker. Doz. 65c, postpaid.

CHAS. DICKENS—Deep purple violet. Exhibition type. Doz. 60c, postpaid.

CHOICE MIXED—Made up from 300 standard varieties. All number one bulbs. No Culls. Doz. 40c, postpaid.

GLOXINIA

What we commonly call Gloxinias are Sinningias from Brazil, raised in the tropical rain forests. The name Gloxinia is probably more familiar to the grower. These colorful house plants have tuberous rhizomes and are easily grown in pots and transplanted to a garden bed, preferably in a semi-shaded place. Colors.—

BAVARIA—Dark Blue Ruffled Edge.

BRILLIANT—Clear Bright Red.

EMPEROR FREDERICK—Scarlet with white band.

EMPEROR WILLIAM—Deep violet with white band.

MONTEREY ROSE—Soft Rose.

SKY BLUE—The name accurately describes the color of the large open throated blossoms.

SPOTTED AND STAINED HYBRIDS—Blossoms veined and spotted, in a mixture of pink, blue, purple and red marking on white.

All Gloxinia Bulbs — 25c ea.

DAHLIA BULBS

CULTURE—Dahlias do well in any well drained fertile garden soil in an open sunny location, and are as easy to grow as potatoes.

Before planting spade the ground well to loosen the soil thoroughly to a depth of six to eight inches.

When soil is warm and danger of frost is past, dig holes five or six inches deep, two to three feet apart, in rows three to four feet apart.

Lay tuber on its side—never on end—with eye upward, and cover with good dirt in which is mixed a little wood ashes if possible. Mark place of hill with a small stick. Sprout should show within three weeks.

After plant is up, remove all but one sprout. When this has grown to be twelve to fifteen inches high, pinch out the top to encourage lower branching and make it unnecessary to stake plant to keep from breaking over by wind.

ELIZABETH SLOCOMBE (D)—Red Purple, Each 20c, postpaid.

FRED SPRINGER (D)—The Great Kelly Lie or Bedding Dahlia, Brilliant Red, each, 25c, postpaid.

DWIGHT W. MORROW (D)—Velvety Dark Red. Each 35c postpaid.

NEW GLORY (D)—Or-blood Red, tipped White. Each 40c, postpaid.

BUCKEYE BRIDE (D)—Geranium Pink. Each 45c, postpaid.

MRS. I. D. V. WARNER (D)—Mauve pink, large extra fine flowers on stiff stems. Free and continuous bloomer. Each 20c, postpaid.

JANE COWL (D)—Large glistening bronzy buff flowers with shades of salmon and old gold, held on long rigid stems. Each 20c, postpaid.

JERSEY BEAUTY (D)—Medium size, pure clear pink, long, stiff stems. Very free flowering. Each 20c, postpaid.

KEMP WHITE WONDER (D)—Fine white Dahlia of medium size, very prolific with great keeping qualities. Each 20c, postpaid.

FRANCIS LARROCO (D)—Finest yellow. Vigorous grower, very strong stems. Each 20c, postpaid.

JERSEY BEACON (D)—Very vigorous, and a free and early bloomer. Brilliant scarlet with buff reflex, giving a beautiful two-tone effect. A very large deep shaggy dahlia with good stems. Each 25c, postpaid.

JERSEY MAMMOTH (D)—Giant mahogany and gold. Long stiff stems. Each 25c, postpaid.

BASHFUL GIANT (or Apricot Giant) (D)—A delicate apricot shading towards the edges of the petals to buff. Early. Each 25c, postpaid.

GLADIOLI

TUBEROSES

MEXICAN EVERBLOOMING—The most beautiful Tuberose that was ever brought to our attention; it begins to produce its fragrant flowers in June and blooms continually until frost. Plant in good soil, and water occasionally during extreme warm weather, and an abundance of lovely flowers will be the reward. In the southern part of the State the bulbs may be left in the ground all winter. Doz. 30c; 100, \$1.75, postpaid.

TUBEROUS ROOTED BEGONIA

BEGONIAS

Tuberous Rooted Double Camellia Flowered
These are among our most beautiful summer flowering plants, interesting to grow and give excellent satisfaction. Are particularly useful for bedding in semi-shaded places, for planting in window boxes, and are equally valuable as house plants. Colors as follows: Scarlet, Pink, Salmon, Copper, Yellow and Dark Red. Each 25c.

GLOXINIA

DAHLIA BULB ASSORTMENTS

NOTICE:—These assortments are subject to change of variety.

Our stock of dahlia bulbs are the finest quality, grown on fertile farms, processed and packed in frost proof cellars.

Fields are carefully rogued during blooming season and all plants showing any sign of weakness as well as those not true to name are destroyed. You cannot find better stock at any price, and every root can be depended upon to produce a strong healthy plant that will bloom from summer until frost the year it is planted.

Each root is packed in clean green log sawdust, wrapped in white semi-parchment paper with label showing name of variety, type and predominating color. Cultural directions packed in each box.

GARDEN TOOLS

We carry garden tools of the finest quality and also competitive grades. Due to present conditions we cannot list all items that we stock and we urge you to select your garden tools as soon as possible. Either call in person or write us what you require and we will quote you on what merchandise we have on hand.

GARDEN TROWELS

No. 80 — Garden Trowel. One piece pressed steel, handsomely finished in black enamel. Length of blade 6 inches. Ground and polished points. Each: 10c. Shipping weight 8 ounces.

GARDEN WEEDER

No. 82 — Garden Weeder. One-piece pressed steel. Handsomely finished in black baked enamel. Has five steel fingers, and is one of the most useful and handiest garden tools made. Ground and polished points. Each, 10c. Shipping weight: 7 ounces.

TRANSPLANTING TROWEL

No. 81 — Transplanting Trowel. One piece pressed steel. Handsomely finished in black and baked enamel. Length of blade, 6 inches. Width 1 1/4 inches. Ground and polished points. Each, 10c. Shipping weight: 7 ounces.

PULL HOE WEEDER

No. 110 Gardex Pull Hoe Weeder. This improved hoe with the new Patented Diamond Point Share will do you weeding in hard, dry or heavy soil under the most adverse conditions. You will be surprised at how easily this hoe pulls through the soil. You can walk along pulling this tool after you weed-out pressure on the handle and get every weed. You only have to look at this tool to realize how easily the Shares penetrate the soil. In our experiments with the GARDEX Pull Hoe Weeder we have used it under every type of condition. One test that we gave it was to hoe the weeds from an abandoned clay surface tennis court. You can imagine how hard that ground was. The GARDEX Pull Hoe Weeder slid through the ground easily and destroyed every weed in its path. With one GARDEX Share, width 3 1/2 inches. Each, . . . \$1.30.

GARDEX PULL HOE

No. 100 Gardex Pull Hoe, for weeding medium and light soil. With this tool you work erect pulling the hoe behind you. You accomplish five times as much work with this tool as you could with the old style chopping hoe. Using a GARDEX Pull Hoe it is so easy to keep ahead of the weeds that weeding becomes a play.

No. 1004, 4" wide\$1.10
No. 1005 1/2, 5 1/2" wide1.25
With 5' handle.	

GARDEX SCUFFLE HOE

This push type hoe is a favorite for cutting weeds in driveways, close to buildings and other places where ordinary hoes are unsatisfactory. The blade is made of special high-grade steel that stand up and stay sharp under the hardest kind of treatment. If you have a crushed rock driveway where the weeds persist in coming up, you will find this just the tool you need. No. 4107, blade 7" wide \$1.35

With 5" Handle

GARDEX TURF EDGER

You can edge from 900 to 1000 running feet of lawn in an hour with this tool. Nothing like it has ever been developed before. Designed with a wing blade it cuts horizontally as well as vertically. All you do is push it along with short even strokes. You can govern the depth to which it cut by simply raising or lowering the handle.

It does perfect work on straight edging, corners, curves and trees. It also cuts a clean V shaped groove along sidewalks by tilting it to a 45° angle.

No. 400, GARDEX Turf Edger \$1.30

With 4 1/2' handle

OTHER STYLES OF TURF EDGERS

GARDEX HAND PLOW

Gardex Hand Plow, for opening furrows before planting — covering furrows — hilling corn, potatoes and similar crops — making irrigation ditches around gardens and for bulb planting. The double mold board throws the loose dirt to both sides of the furrow. With one easy trip across your garden pulling the GARDEX Hand Plow No. 200 behind you, you have a clean, open furrow, ready for planting.

This tool is also very handy for ridging your soil in the fall to catch and hold winter moisture. The GARDEX Hand Plow makes it easy to hill your plants in one-fifth of the time and without damaging the roots as is so often done with the old style chopping hoe. No. 2006, 6 inches wide \$1.75

No. 2008, 8 inches wide 1.90

With 5 foot handle.

GARDEX SEEDER

No. 270 Gardex Seeder — Has adjustable hopper for various size seeds. Sows seeds from the smallest flower seeds up to cucumber size in the home, flower-garden, green-house. It drops seeds quickly, evenly, economically. No stooping. Saves time and labor. Hopper capacity 1/4 pint, diameter of discs 4 1/2 inches, largest seed opening, .28 inches by .4 inches.

Packed one to a carton containing complete instructions.

No. 270, with 30 inch handle \$1.10

HUDSON GARDEN PLOW

A counterbalance plow, with a 24 inch high wheel made of the very best material and most careful workmanship. This is a good strong, durable tool and can be used in the largest gardens. Is very popular and the best of its kind. Shipped with tools as shown.

Weight 28 pounds.

No. 242

PLANET JR. NO. 4 COMBINED HILL AND DRILL SEEDER

The No. 4 is a combination of the most useful tools for a moderate sized garden. It plants almost all vegetable seed in continuous rows or in hills 4, 6, 8, 12 or 24 inches apart. A plow adjustable for depth opens a straight narrow furrow, the seeds are dropped in it, are covered and the soil is firmed and the next row marked out all in the same operation. Converted into a Single-Wheel Hoe by changing 1 bolt.

Cultivating equipment includes all the essential equipment for hoeing, weeding, cultivating, plowing, furlowing, ridging, etc. The tools are oil hardened and tempered and will wear almost indefinitely.

No. 4 — Complete

No. 4D — Planter only

\$21.25

16.25

PLANET JR. NO. 300-A SEEDER

The No. 300-A sows through holes in a thin seedling plate; 3 plates each with 13 holes provides ample adjustment for any seed. Many exclusive features contribute to make this the most accurate and satisfactory seeder for commercial growers.

No. 300A — Planter only

Price \$22.75

CYCLONE SEED SOWER

A machine of very simple construction. This seeder will sow any seed that is sown broadcast, such as Oats, Wheat, Rye, Millet, Clovers, Grass Seeds, etc. It can be very easily adjusted to suit seed being sown. We sell a world of them every year and our customers say they give good satisfaction. \$2.50 each, customers paying transportation charges.

Mailing weight: 6 lbs., ea. — \$2.75

SPADING FORKS

SPADING FORKS—Heavy best grade steel tines, wood D-handle. also smaller and lighter types. Pitch Forks—Three and four tines

RAKES

ONE-PIECE FORGED STEEL GARDEN RAKE—Forged from one solid piece of steel. Well balanced. Ideal for gardening. Curved, 14 tooth or 16 tooth.

ALSO Other steel rakes, various sizes, straight or curved teeth.

STEEL BROOM RAKE—Flat teeth, flexible spring steel.

BAMBOO BROOM RAKE—Very light, though durable. Handy for raking leaves, etc.

SOLID STEEL GARDEN SOCKET HOE—6 or 7 inch blades.
SOLID STEEL GARDEN SHANK HOE.
LIGHT WEIGHT STEEL HOE—Especially designed for women. Fine tempered steel that holds its edge.
SQUARE TOP (or Onion) HOE. WEEDING HOE—One prong or two prong.

"LAWNETTE" SPREADERS

No. 15

Lawnette Spreaders have been purchased for years by the most discriminating and exacting gardeners. Thousands are sold every year. There must be a reason.

No. 15—Spreading width — 14". Holds 15 lbs. of plant food, enough for 400 sq. ft. 7" steel disc wheels. Shipping wt. — 11 lbs. \$4.00.

No. 115—Spreading width—16". Holds 30 lbs. of plant food, enough for 800 sq. ft. 10" steel disc wheels. Shipping wt. — 19 lbs., \$9.00.

No. 115

WISS PRUNING SHEARS

DROP FORGED

No. 908 "HY-POWER" PRUNING SHEARS
The famous effortless cutting action that simplifies pruning. Prevents injury to bark. Popular with orchardists, tree surgeons, nurserymen, and gardeners. Keen knife blade acting on durable bronze anvil remains sharp indefinitely. Cuts through the toughest branches easily and cleanly. Has large hardened steel bolt and nut. Replaceable anvil. Interchangeable blade half. New coil steel. Exclusive non-pinching, knurled, pistol grip handles. Convenient positive action, thumb latch.

No. 906B—6 inch Each \$1.50

No. 906 — 6 inch Nickel Finish each 2.00

No. 906B — 8 inch Each \$1.50

No. 908—8 inch Nickel Finish Each 2.50

This is our best pruning shear. We have other types of pruning shears in stock.

PEAT MOSS — Fine for garden mulch, as it conserves moisture. When incorporated in the soil, it promotes growth and increases humus, which is very essential for growing plants. Lb. 8c; 10 lb. 75c; bale \$3.75.

HEDGE SHEARS

HEDGE SHEARS — 8 in.; 9 in.; 10 in.; Good quality steel.

GRASS SHEARS

Wiss Grass Shears. Also several other types in stock.

'TWIST-EMS'

FOR NURSERIES, ESTATES AND AMATEUR GARDENERS
'Twist-ems' are dark green strong tapes with wire reinforcing that make perfect plant ties. Place 'Twist-ems' around stem and support. Twist ends between thumb and finger. In a "flash" the stem is securely tied.

Box of 125, 8 inch size, 25c
Box of 250, 4 inch size, 25c

BAMBOO STAKES

Painted or natural color. 1 1/2 ft. to 6 ft.

PLANT LABELS

All Metal Markers
For use outside. Will last for years. Splendid for perennial plants.

WEEDERS

All types of approved weed cutters and pullers. See these handy labor-saving tools.

Grass Hooks or Sickles

We have a selection of the finest American made grass hooks. Several styles.

EARTHENWARE FLOWER POTS

We carry a complete line of earthenware flower pots and flower pot saucers. 2 to 12 inch sizes.

GLOVES

Protect your hands — wear gloves in your garden! Canvas leather and rubber gloves, all especially suited to garden use.

PROTECT YOUR GARDEN AGAINST

RAIN, WIND, BUGS, FROST with Hotkaps

HOTKAPS are waxed paper cones, easily set out in quantity over seed or growing plants. They guard against rain, frost, cold, wind, hail, birds and insects, and maintain perfect mulch. Growth is forced and yield is increased 10 to 25%. Crops mature 2 to 3 weeks earlier and bring premium prices. 1,000 for \$11.00; 250 package with fibroboard setter, \$3.50; 100 package with fibroboard setter, \$1.95; steel setter \$1.35; garden setter, 15c. Postage extra.

Home Garden Set, 25 Hotkaps with Setter \$.50
Postpaid 65c

RAISE BETTER CHICKS AND PLANTS

It doesn't pay to turn your chick out in the spring rains, slush and snow to catch cold and die. Science has proved you cannot raise them successfully under glass. Put them in a brooder house with large FLEX-O-GLASS or VITAPANE windows that will admit plenty of unskinned sunlight. Every chick will stay healthy, free from rickets (weak legs) and other diseases. Their fast, strong growth will be amazing.

Hotbeds raise strong plants for transplanting. Frames are light, easily handled and hold heat better than glass.

Greenhouses, Hot and Cold Bed Frames, Hot Houses, Plant Protectors

FLEX-O-GLASS

1 yard or more per yard .40
5, 10, 15, and 25 yard rolls per yard .35

FOR BROODER HOUSES, COLD FRAMES, ETC.

R-V-LITE VITAPANE

THE NEW SCIENTIFIC AND MODERN GLASS SUBSTITUTE
Vitapane is made from transparent cellulose acetate, reinforced with a tough netting fabric. The cellulose has already proved itself to be an ideal transparent material in a multitude of uses and under the most trying conditions. Because it has no foreign coatings or impregnations to wear off or become soiled, Vitapane always stays clear, clean, and new in appearance. Your Vitapane installations will not only be practical, durable and modern, but also attractive. Rolls 36 in. wide.

To install—merely tack down with strips of wood, allowing open spaces for water drainage. Price per square yard 55¢

WATERING CANS

Best grade of galvanized iron, very strong. Long spouts make them very desirable for flower-bed use. Equipped with fine and coarse nozzles. 4 qt. to 12 qt.

GARDEN HOSE

Our moulded hose is made strong and durable and will last for years. Cheaper in the long run than low priced grades. Sprinklers and Hose Nozzles—See our complete line.

RAFFIA

For bunching vegetables and tying flowers and vegetables to supports. We handle only the best grade.
Lb. 60c; 5 lbs. \$2.75, postpaid. Not prepaid: 10 lbs. \$5.00.

ACME DAWG-GONE

The purpose of Dawg-Gone is to keep dogs away from evergreens. Evergreens and especially arbor vitae are very easily

burned, leaving them greatly disfigured if not entirely killed. DAWG-GONE is a combination of rare chemicals releasing odor very distasteful to dogs.

Packed in tubes; per tube \$.25

Protects Trees and Shrubs from Dogs, Cats, and Rabbits
"DOGS SHUN IT"

DOGZIX is a liquid and is ready for instant use. Simply put DOGZIX in clean sprayer and spray, or saturate cloth and suspend from lower branches of evergreens, shrubs, etc.
Price, 6 oz. bottle, 50c.

ACME KOPPER SHIELD PRUNING PAINT

A specially prepared liquid paint containing 2% copper for treating wounds left by pruning, storms or accident, to prevent such diseases as European Canker Fungus, Hard Rot, and certain other fungi. Forms a protective shield while the tree is naturally overcoming the shock. Covers twice as much surface as the ordinary bituminous tree compound.

½ pint 30c; pint 45c; quart 75c.

TREE TANGLEFOOT

STOPS ALL CLIMBING INSECTS

TREE TANGLEFOOT — A sticky material for applying in bands around the trunks of trees and vines to combat the climbing and creeping type of destructive insect pests, effectively controlling Canker Worms, Climbing Cut Worms, Gypsy Moth Caterpillars, Brown-tail Moth Caterpillars, Tussock Moth Caterpillars, Bag or Basket Worms and Cut Ants. It remains effective three to four months, outlasting 10 to 20 times any other material.

6 oz. can 35c; 1 lb. can 65c; 5 lb. can \$2.75; 10 lb. can \$5.25; 25 lb. can \$13.00.

CONTROL MOTHS-PEACH BORER-WEEVILS

PARADICHLOROBENZENE

A government-recommended control of the peach borer. Clean gum away from the tree trunk. Encircle the tree, 2 inches away from the trunk, with 1 ounce of P.D.B. and cover with fine dirt. Tramp down firmly. A weevil control (non-explosive) and more economical to use than High Life. Use 2 to 3 ounces in a barrel of grain. Should not be used on beans or peas that you desire for eating. Also recommended to oust moths out of bee hives and clothes; acts as a deodorant.
¼ lb. 20c; ½ lb. 35c; 1 lb. 60c

ARMOUR'S FERTILIZERS

Note: Prices on all fertilizers are subject to market changes. Write for quantity prices.

ARMOUR'S SPECIAL GARDEN FERTILIZER — This is a special prepared fertilizer for the home gardener containing the proper proportion of various ingredients to produce early, vigorous growth and bring vegetables, fruit, flowers and foliage to full development.
10 lb. bag 50c; 25 lb. bag \$1.00; 50 lb. bag \$1.50; 100 lb. bag \$2.50.

ACID PHOSPHATE — 18% — It gives excellent results on nearly all crops but is especially recommended for use on grains and grasses.
Lb. 4c; 100 lbs. \$1.65.

BONE MEAL — Ground very fine. Acts very quickly. There is no better fertilizer for the home garden than this splendid material. Splendid for rose beds, pot plants, etc.
Lb. 5c; 100 lbs. \$3.50.

BLOOD MEAL, DRY — Fine for potted plants, roses, and as a top dressing for lawns. Produces a quick growth. Lb. 10c.

MURIATE OF POTASH — To be used liberally, especially for root crops.
Lb. 5c; 100 lbs. \$3.50.

ARMOUR'S 4-12-4 — A mixture for cotton and corn growers. Also used by truck farmers for potatoes, watermelons, tomatoes, etc.
Lb. 5c; 100 lbs. \$2.00.

LIME (Hydrated) — For the sweetening and renovating of land that has become sour. It promotes growth and has a tendency to prevent weeds.
Lb. 2c; 40 lbs. 45c.

Here Is the Recommended Diet for Lawns and Flowers

● Plant food is a wise investment for every gardener. Properly fed plants grow so much better, are more hardy, and certainly are more beautiful. Because it supplies every one of the eleven different plant food elements plants require from the soil, WE RECOMMEND the use of VIGORO.

You'll be well satisfied with this complete plant food. It was created by scientists especially for feeding plants. Vigoro gives amazing results. It costs only 16c or less to feed properly 100 square feet of lawn or garden area. With Vigoro so economical, why deny your gardening things a real square meal?

1 lb. pkg.	\$.10	25 lb. bag	\$1.50
5 lb. pkg.45	50 lb. bag	2.50
10 lb. pkg.85	100 lb. bag	4.00

AUXILIN

MIRACLE ROOT GROWER FOR CUTTINGS — Many reasons for failure of rooting in the plants have been suggested. The discovery of AUXILIN now indicates that cuttings often fail to grow roots, either because this growth-stimulating chemical is not present or is trapped, and therefore unavailable to the cutting, or is present in less than effective quantities.

AUXILIN promotes vigorous and rapid growth of the plant itself, and if the cuttings are taken from woody plants, they usually produce stronger and more uniform specimens. For example, in the case of evergreen, new growth will follow the first year after the cuttings have rooted. Cuttings with flower buds on them will usually flower the same season.

1/6 oz. bottle, treats about 600 slips	\$.50
1/2 oz. bottle, treats about 1,800 slips	1.00
3 1/2 oz. bottle, treats about 7,200 slips	6.00
8 oz. bottle, treats about 28,800 slips	12.00

PLANTABBS

FOR LOVELY FLOWERS FEED HOUSE PLANTS and all garden flowers these concentrated food TABLETS. One of the most startling results experienced in the use of Fulton's Plantabbs containing Vitamin B-1 is the rapidity of strong, healthy growth. Scrawny plants fill out, blooms are more abundant.
30 Tablets, 25c; 75 Tablets, 50c; 200 Tablets, \$1.00; 1000 Tablets, \$4.25.

**NEW!

Weatherized TRELLIS NETTING

Ideal Support for SWEET PEAS, GARDEN PEAS, POLE BEANS, CUCUMBERS, Tomatoes

Grow finer, larger flowers and vegetables. Hung with ease in 5 minutes; no fuss or bother. Use instead of string or wire. (Wire in sun burns delicate tendrils.) Doesn't rot like string — lasts several seasons. In 3 sizes: No. 1, 60x72 in., 39c; No. 2, 60x96 in., 49c; No. 3, 60x180 in., 69c. Postpaid.

TRAIN-ETTS

VITA-VIM

PLUS VITAMIN B-1

Complete Plant Food Tablets

Nitrogen 17% — Phosphorus 8 1/2% — Potassium 8%
One tablet to the gallon water makes a solution of average strength. This may be varied according to the size and need of the plant. To use in tablet form, a small hole is made in the soil and the tablet placed therein. Rain or the usual watering will then dissolve it. For plants in four to eight inch pots, one tablet is recommended. Vita-Vim Tablets are packed in amber colored containers as a protection against sunlight and moisture.

NITRAGIN — Oldest and Most Widely Used Inoculator in America**DUBAY SEED DISINFECTANTS**

Prevent Disease Losses, Increase Stand and Yields

SEMESAN — For flower, vegetable and nursery crops. The protection afforded by Semesan against seed decay and damping off, assures the grower of better stands. Good stands of healthy, vigorous plants usually produce larger yields and better quality flowers, vegetables and fruits than thin stands of weak or stunted plants. For these reasons seeds treated with Semesan generally produce more profitable crops.

1 oz. treats 15 to 30 lbs. of seed by dust method; 40 to 60 lbs. by liquid method.
1/2 oz. pkt. 10c; 2 oz. 40c; 1 lb. \$2.50; 5 lbs. \$11.40.

SEMESAN BEL — For seed potatoes. Controls scab and Rhizoctonia on white potatoes and prevents stem rot and scurf of sweet potatoes. 1 lb. treats 60 to 80 bushels.

In addition to killing seed-borne diseases, Improved Semesan Bel protects the seed pieces from rotting under cold, wet soil conditions, assuring better stands and larger yields. 1 lb. treats 60 to 80 bushels.
2 oz. 30c; 4 oz. 55c; 1 lb. \$1.65; 5 lbs. \$7.15.

2% **CERESAN** — For cotton, millets, peas, sorghums and narcissus. Controls surface seed-borne diseases and prevents seed rot. Reduces damping-off of seedlings. 2% Ceresan treated cotton seed in forty tests on farms produced almost 60% better stand before chopping than untreated seed. After chopping, the treated rows still had nearly 30% more plants than the untreated rows. At picking time, the treated rows outyielded the untreated by 16.2%. Almost one-sixth more seed cotton produced as a result of seed treatment with 2% Ceresan.

1 lb. treats from 5 to 8 bushels of seed.
1 lb. 75c; 5 lbs. \$3.30; 25 lbs. \$14.50; 100 lbs. \$52.00.

NEW IMPROVED CERESAN — For wheat, oats and barley. Controls smuts of practically all kinds. In actual tests on farms, New Improved Ceresan treatment increased yields as follows:

Wheat — An average of more than a bushel per acre increase or nearly 6%.

Oats — 3.2 bushels per acre increase or over 18%.

Barley — Increase nearly 6% over untreated seed.

1 lb. treats 32 bushels of seed.
4 oz. 30c; 1 lb. 80c; 4 lbs. \$2.70.

SEMESAN JR. — For Seed Corn. Every grower knows the importance of securing good stands of healthy plants. But good stands, especially from early plantings when the soil is cold and wet, are hard to get.

New Improved Semesan Jr. helps to give you better stands by generally protecting the seed from rotting and the seedlings from blights and certain root-rots. 1 lb. treats 8 bushels of seed corn.

1 1/2 oz. pkt. 15c; 1 lb. 75c; 6 1/4 lbs. \$3.75.

**CROTOX**

Bird and Rodent Repellant

Treats All Smooth Surface Seeds

Saves Seed Loss and Replanting

BONIDE CRO-TOX protects your seeds during the period when they are most easily damaged by ridding your fields of crows, doves, larks, starlings, blackbirds, pheasants and other seed-pulling birds and rodents, such as squirrels, woodchucks, moles, etc.

No need to replant seed when Bonide Cro-Tox is used. Birds and rodents will not molest seeds treated with Bonide Cro-Tox. Bonide Cro-Tox saves you expense and labor of replanting — assists you in preventing seed rot — aids and hastens germination. A guaranteed protection against seed pests at an insignificant cost of a few cents per acre.

1/2 Pt. can — treats 1 bushel seed	\$.60
1 Pt. can — treats 2 bushels seed	1.00
1 Qt. can — treats 4 bushels seed	1.50
1 Gal. can — treats 16 bushels seed	4.50

**ATLACIDE**

KILLS JOHN-SON GRASS AND WEEDS

ATLACIDE NON-POISONOUS WEED KILLER — Extirminates all undesirable vegetation — including poison ivy, etc. — as easily as watering a garden, without poison hazard to humans or animals. Simply mix water and apply on any vegetation — weeds, grass, etc., with a sprinkling can or sprayer. Especially recommended for obtaining weed-free driveways, paths, tennis courts and gutters.
1 lb. 20c; 10 lbs. \$1.50; 25 lbs. \$3.00; 100 lbs. \$10.25.

INSECT CONTROL

When insects appear look for the following offenders so that you may plan your attack correctly.

CHEWING INSECTS — This class includes all caterpillars, beetle, slugs, worms and saw-flies and are controlled by stomach poisons such as Arsenate of Lead, Paris Green, London Purple, Garden Guard, Pyrethoxide, etc.

SUCKING INSECTS, feed on plants by inserting their beak into the tissues of a plant and suck out the sap. Aphids, Stink bugs, Psylla, chinch bugs, squash bugs, mealy bugs, white fly and leaf hoppers belong to still class and are controlled by contact sprays such as Nicotine Sulphate, Evergreen, Garden Guard, Pyrethoxide, etc.

MIGRATORY INSECTS — Insects of crawling type, like cutworms ants, sawbugs, grasshoppers, earwigs, slugs and snails are controlled by poison baits such as Snarol or Destruxol Sow Bug Bait.

IF YOU'RE UNCERTAIN — CONSULT US

When you're fighting insects or plant disease, the wrong method or material can often do more harm than good. For instance, a contact spray that's right for controlling aphids on roses will not control black spot on roses.

Material intended for plant diseases isn't necessarily harmful to insects.
So — If you're not sure about any phase of your battle against garden pests, feel free to ask us. We're always glad to consult — and usually have the correct answer.

INSECTICIDES AND FUNGICIDES

SPRAY GUIDE CHART FREE

HELPS YOU TO RECOGNIZE GARDEN ENEMIES AND SHOWS HOW TO COMBAT THEM.
WRITE, PHONE OR CALL FOR YOUR FREE COPY.

ACME SCIENTIFIC ROSE SPRAY

A "system" of spray treatment for roses and flowers of all kinds. Eliminates guess work. Each set contains three separate items, each scientifically made to combat one of the three major classifications of blight and insect pest. Combine all three. Use regularly. Result: Complete all-around protection.

No. 3—Amount of Spray 12 quarts. 95c
No. 6—Amount of Spray 24-quarts. \$1.50
No. 15 to 25 Bushes all season
No. 24—Amount of Spray 96 quarts. \$4.00
Protects 60 to 100 Bushes all season.

ACME PYRETHRUM GARDEN GUARD FOR YOUR VICTORY GARDEN

Don't let the bugs have your vegetables and flowers. Dust with Acme Pyrethrum Garden Guard from the sifter carton and enjoy the fruits of your toil. The killing ingredient is now Pyrethrum, non-injurious to humans and warm-blooded animals. Every particle of dust is active. It gives immediate control over a wide range of insects, including such hard-to-kill bugs as SQUASH BUGS and CUCUMBER BEETLES. Acme Pyrethrum Garden Guard can be used without restriction on flowers, vegetables, and foliage of all kinds. Order a suitable package of Acme Pyrethrum Garden Guard today and be prepared when insects appear. A light dusting will bring immediate results.

1 lb. sifter carton, 40c 4 lb. bag, \$1.15 50 lb. bag, \$10.00

ACME EMO-NIK

Most yards contain foliage that is affected by Scale, Red Spider, and certain other troublesome pests. Here is a complete contact insect spray combining nicotine in its most active form with Emo a high quality summer oil emulsion.

Recommended for control of Aphis, Mealy Bugs, Red Spider, Thrip, White Flies, Rust Mites, Mildew, certain scale insects and other garden pests.
4 1/2 oz. 35c; pint, 65c; Quart, 95c; gallon, \$2.50.

ACME WETTABLE DUSTING SULPHUR

(An Excellent Chigger Chaser)

An improved dusting sulphur which can also be used as a liquid spray. Recommended to control mildew, leaf spot, black spot and rust on rose bushes, chrysanthemums, snapdragons, carnations, and certain other foliage; also red spiders on evergreen. 98% passes through 325 mesh screen. 2 pound carton, 30c ea.

ACME KOPPER QUEEN

(Mildew Spray)

A strong liquid copper spray for the control of mildew, leaf spot, and black spot on rose bushes, flowers, and many other kinds of foliage. Stainless, leaves no unsightly residue to detract from appearance of flowers and ornamentals. Use as a liquid spray replacing Bordeaux Mixture and sulphur.

1/4 pint, 35c; Pint, 60c; Quart, 90c; Gallon, \$2.25; 5 gallons, \$7.50.

Aphis Spray

An improved nicotine spray combining a soft soap with Black Leaf 40, suitable for the control of all kinds of aphid (plant lice), thrip, leaf hopper and many more hardy insects infesting rose bushes, flowers, shrubs, vines, bushes and trees. Mixes easily with any kind of water. 3 oz. collapsible tube, 35c; 12 oz. can, \$1.00; 2 1/2 lb. can, \$2.35.

SNAROL

with Metaldehyde

An effective insecticide bait which will throw a ring of protection around shrubs, flowers and plants. For use against snails, slugs, cutworms, earwigs, sow bugs, grasshoppers and many other insects which migrate along the ground.

1 lb. 25c; 2 1/2 lbs. 50c; 6 lbs. \$1.00; 10 lbs. \$1.50.

ACME TWO-WAY SPRAY — A balanced insecticide and fungicide containing 14% arsenate of lead and 83% Bordeaux Mixture. Two results with one application.
1/2 lb. 20c; 1 lb. 30c; 4 lbs. 80c.

ACME ALL ROUND SPRAY — All round spray contains the three leading remedies used by all large growers: Arsenate of Lead, Nicotine Sulphate and Bordeaux Mixture.
1/4 lb. 35c; 1 lb. 80c.

ACME PARIS GREEN — A rich emerald color and of fine fluffy physical character. Containing 55% arsenious oxide, it will give quick control where extreme measures are necessary.
1/4 lb. 18c; 1 lb. 50c; 5 lbs. \$2.25; 14 lbs. \$4.75; 100 lbs. \$32.25.

ACME DRY LIME SULPHUR — For use in dormant spraying against scale, peach blight, leaf curl and twig borer. Summer spraying against scab, soot, blotch, red spider and mote.
1 lb. 35c; 5 lbs. \$1.45; 25 lbs. \$4.00; 100 lbs. \$12.50.

ACME FISH SOAP — A (fish oil) soap effective in destroying many sucking insects and lice on plants, trees, ferns, etc.
Its use with Nicotine greatly increases the value of that spray.
1 lb. 35c; 5 lbs. \$1.50.

ACME LONDON PURPLE — A favored insecticide for 50 years. Now stronger and better than ever.
1/4 lb. 15c; 1 lb. 30c; 4 lbs. 50c.

ACME ARSENATE OF LEAD — The most favored arsenical insecticide found in the American market. It is safest to use on tender foliage and sticks well on the leaves.
1/4 lb. 18c; 1 lb. 30c; 4 lbs. 70c; 100 lbs. \$15.00.

ACME BORDEAUX MIXTURE — Prevents large losses caused by blight, rot, mildew, scab, anthracnose, and certain other fungous diseases. It stimulates plant growth and greatly increases the harvests.
1 lb. 35c; 4 lbs. 75c.

ACME CALCIUM ARSENATE — The cheapest arsenical insecticide on the market but of great economy and efficiency for certain purposes. The accepted dust for boll weevil poisoning on cotton; also recommended to combat chewing insects.
1/2 lb. 15c; 1 lb. 25c; 4 lbs. 50c; 100 lbs. \$9.00.

SUNOCO SELF EMULSIFYING SPRAY

SUNOCO will emulsify in any water and is clean to use. It will not deteriorate from season to season. Kills every scale it touches—San Jose, Oyster-shell, Rose scale, Tulip, Magnolia, Terrapin, Pit-making Oak, Oak Lecanium, European Elm, Gloomy, Scurfy, Dogwood Scurfy, Cottony Maple Leaf Woolly, Catalpa Mealy Bug, Pine Leaf Scale, Sitka Spruce Gall, Spruce Galt Aphid, Juniper Scale, Spruce Bud Scale, Red Spider, Lace Wing Bugs, Eucynomos Scale.

SUNOCO SPRAY is used to control scale insects on all types of Evergreen, Fruit and Shade Trees for both summer and dormant spray. Ask for free booklet giving detailed information. One gallon, \$1.35; 15 gallons, \$11.50.

BLACK LEAF "40"—Kills Aphis, Thrips, Leaf Hoppers and other insects on gardens, farm and orchard crops by contact and fumes—an advantage not possessed by non-volatile non-poisonous spray materials. 1 oz. bottle, 35c; 5 oz bottle, \$1.00; 1 lb., \$2.25; 2 lbs., \$3.25; 5 lbs., \$5.85; 10 lbs.

NEW EVERGREEN—New Every Green Spray is the only spray 95% of gardeners ever need. No complicated instructions. Simply mix with water and spray. Harmless to plants, men and animals. Pyrethrin content deadly to both chewing and sucking insects. Economical. 1 oz. bottle 35c; 6 oz. bottle, \$2.25; 2 lbs. \$3.25; 5 lbs. \$5.85; 10 lbs. \$10.90.

BUFF COLOR CALGREEN is the cheapest form in which the average cotton grower can buy Paris Green and calcium arsenate mixed in the same proportion as in Buff Color Calgreen. This is due to the economies possible through volume factory manufacture.
4 lbs. pkg. 60c; 100 lbs. drum \$12.50.

"Green Tox 50" is non-poisonous to humans, animals and birds, but sure death to "chewing" and "sucking" insects. No danger from eating fruit or vegetables sprayed with "Green Tox 50."

1 oz. (makes 30 quarts)	\$.35
6 oz. (makes 45 gallons)	1.00
1 pt. (makes 120 gallons)	2.00
1 qt. (makes 240 gallons)	3.50

PYRETROXIDE DUST No. 15

A dust composed of D & O Pyretroside. Dusting Sulphur and carrier. For control of certain chewing and sucking insects on fruits and vegetables. Controls Asparagus, Cucumber, Diptera and other similar beetles. Squash Bug, Young Nymphs, Cabbage Worm, Celery Leaf Flier, Leaf Roller, Leaf Miner, Sod Web Worm, Grape Leaf Hopper, Green House Thrip and Flower Thrip also of definite assistance in control of powdery mildew on grapes and other crops.

1 lb. package	35c
5 lb. package	1.50
50 lb. bag	11.25

Libertys

No. 10 Refined
Rose Special

A special spray for roses and carnations to control Thrips, Green Fly, Leaf Rollers, Leaf Tyers and Red Spiders. Effective on both sunny or dark days. 1 quart makes 100 gallons of spray. Safe — Effective — Economical.

Quart Can \$3.00

L-333 Rotenone
Plant Spray

Recommended for Red Spiders, Thrips, Green Fly, White Fly, Larvae and Aphids.

A rotenone-bearing insecticide containing an ideal non-soap spreader and wetting agent.

Mixes readily with hard or soft water.

Recommended for use on ALL MISCELLANEOUS CROPS. (Not roses or carnations.)

Quarts \$3.00; Gallons \$11.00.

DESTRUXOL—One of the finest sprays for use against aphids, thrip, lice, red spider, leaf roller hoppers and mildew. It contains Nicotin Sulphate, Cyanide, etc., the Cyanide giving off fumes which reach insect life on underside of foliage.

1 oz. makes 5 gallons	\$.40	½ pt. makes 50 gallons	\$1.55
2 oz. makes 10 gallons	.. .65	1 pt. makes 100 gallons	2.25
4 oz. makes 25 gallons	.. .90	1 qt. makes 200 gallons	4.00

FUNGUSOL EMULSION—A stable emulsion containing free nicotine, copper sulphates and oils; is especially effective in the control of mildew and other fungus diseases. Also very effective in the control of thrips.

4 oz. makes 5 gallons spray \$.45
½ pt. makes 10 gallons spray65
1 pt. makes 20 gallons spray 1.00
1 qt. makes 40 gallons spray 1.65
1 gallon makes 160 gallons spray 4.25

DESTRUXOL PREMEER POWDER — For the control of Snails, Slugs, Ants, and Sow-Bugs. Sprinkle the ground around the plant as well as underneath and on top of the leaves of the plants. Harmless to both plant and bird life.

1 lb. PREMEER POWDER to make 25 gallons diluted spray	--- \$.90
3 ¼ oz. PREMEER POWDER to make 5 gallons diluted spray	--- .35
1 Heaping Tablespoon PREMEER POWDER makes 1 Gal. diluted spray.	

SUPER DESTRUXOL—Destruxol Emulsion contains the constituents of Destruxol, to which has been added neutral mineral oils in the form of a stable emulsion. Very effective in the control of scale, red spider and aphid on citrus and other trees.

½ pt. makes 3 gals. spray \$.45
1 qt. makes 12 ½ gals. spray 1.25
1 gal. makes 50 gals. spray 3.00

KOPPERSOL—For the control of mildew, blight and other rusts and fungus diseases as well as for Red Spider. One gallon makes 150 gallons of diluted spray. One gallon \$2.50.

LAWN-ACEN—A product which will combat Wire Worms, Nematodes and Brown Lawn Web-worm. Is definite and constructive in eliminating these pests, and at the same time protects your lawn to a great degree against Brown Rot and fungus diseases.

DIRECTIONS: One gallon diluted spray will cover a sprinkled area of ten square feet.

4 oz. 60c; 8 oz. 90c; 1 pt. \$1.50; 1 qt. \$2.50.

BORERSOL—For the control of various types of BORERS in trees and shrubs; Flat-Headed Borer, Pacific Peach Borer, Shot Hole Borer and many other varieties.

Destruxol BORER-SOL fills a long-felt need, because the materials hitherto used for the elimination of Borers have been unsatisfactory and highly hazardous to plant life. Now, for the first time, a safe and dependable commodity, an etherized emulsion, easy to mix, easy to use, and entirely harmless to plant life, is available. BORER-SOL eliminates this secret enemy which invades our trees and shrubs.

8 oz. bottle \$.50

1 gallon bottle 3.25

CALSUL is a Lime and Sulphur Oil Spray. And since Lime and Sulphur (calcium polysulphide) has long been recognized for its insecticidal qualities its successful combination in an Oil Emulsion creates a material about which very little need be said. It will answer every requirement of Lime and Sulphur with the added advantage of an Oil Base.

CALSUL is economical costing, from 25% to 50% less than any other form of Lime and Sulphur.

Quart \$.70
Gallon 1.65
5 gallons 6.00

RED ARROW GARDEN SPRAY — Kills Mexican Bean Beetles, Aphids, Rose Bugs, Aster and Dahlia Beetles, Cabbage and Tomato Worms, Japanese Beetles, Ants in lawns and gardens, Thrips, Leaf Hoppers and many other varieties of chewing and sucking insects. Safe. Leaves no Poison Residue. Effective and Economical.
1 oz. 35c; 4 oz. \$1.00; Pt. \$2.85; Qt. 5.40.

DESTRUXOL SOW BUG BAIT—Kills Cutworms, Sowbugs, Snails Grasshoppers, etc. A ready-prepared bait meal. Is not injurious to vegetation. Will not deteriorate from rain or sprinkling.
8 oz. 25c; 1 lb. 50c; 2 ½ lbs. \$1.00.

RED RIVER POTATO MIX — Kills Potato Bugs and controls Blight, Leaf Hoppers and Flea Beetles, stimulates growth. Use as a liquid spray 4 or 6 lbs. to 50 gallons of water. As a dust 4 to 6 lbs. per acre. 4 lbs. pkt. 85c.

NEW DISCOVERY! MEO-181 KILLS WEEDS;
DOESN'T KILL LAWN GRASS

A brand new discovery. Apply MEO-181 as a spray over the entire lawn or just on individual weeds. It attacks and destroys dandelion, crab grass, plantain, and many other weeds—yet only causes temporary browning of lawn grass, which comes back greener than before. No sterilizing effect on soil. A few minutes spraying with MEO-181 produces better and more lasting results than many back-breaking, futile hours of digging and cutting. One gallon treats 200 sq. ft. with over all application.
Quart 65c; gallon \$1.55; 5 gallons \$7.25.

Radically different in design and operation, easily attached to the ordinary garden hose, providing a simple and effective method of controlling insect pests in both lawn and garden.

Arnold Standard Sprayer, shut-off, transparent cartridge chamber with metal threaded ends, 12 inch angle nozzle, chromium plated \$4.00
Arnold Special Sprayer, shut-off, 12 inch nozzle, brass finish, transparent cartridge chamber 3.25
36-inch Angle or Straight Extension, chromium plated 1.75
36-inch Angle or Straight Extension, brass 1.50

ARNOLD CARTRIDGES

Arnold Cartridges for use in the Arnold Garden Hose Sprayer are made in the following solid soluble forms. Under normal conditions each Arnold Cartridge makes the equivalent of 5 to 6 gallons of hand mixed spray.

P-R—for the control of such sucking and chewing insect pests as Aphids, Rose Beetle, Canker Worm, Red Spider, Lawn and Sod Web Worms when sprayed thoroughly and Leaf Roller when young. Licensed under U. S. Patent No. 1,967,024, each 35c.

NIC-O-SPRAY—Will aid in control of certain soft bodied, sucking insects such as Aphids, each 35c.

PYR-O-SPRAY — will aid in the control of certain soft bodied sucking insects such as Aphids, each 35c.

ROT-O-SPRAY — will aid in the control of such insects as Cyclamen Mite, Mexican Bean Beetle, Striped Cucumber Beetle and Red Spider, each 35c.

ARSEN-O-SPRAY — will aid in the control of Canker Worm and other similar leaf chewing insects, each 25c.

FUNGUSPRAY — will aid in the control of certain leaf spots or blights such as are controllable by a mild or weak Bordeaux Mixture, each 25c.

SULPH-O-SPRAY — will aid in the control of such Fungus Diseases as are controllable by a mild or weak Sulphur Spray, each 25c.

DORM-O-SPRAY — contains miscible oil. For use in dormant spraying, each 25c.

PLANT FOOD SPRAY — for plant feeding. Contains a scientifically balanced food consisting of nitrogen, phosphoric acid and potash, each 25c.

KRYOCIDE

Successful growers know that early care counts in keeping their vegetables and fruit out of the cull class. Dusting or spraying at the proper time prevents worm scar and fruit drop. **KRYOCIDE** is a safe effective insecticide. Its natural Cryolite content was made uniform in quality and composition by nature. **KRYOCIDE** (Natural Cryolite) is free from injurious soluble fluorides that may cause foliage burn-pulverized extremely fine — easy to use. Extensive field tests have proven Kryocide's control of worms. Check the findings of your local experiment station — then insist on natural Cryolite — Kryocide is very effective against chewing insects.
4 lb. package \$1.20

WETTABLE SULPHUR — To be used in water for the control of such fungicidal disease as are susceptible to sulphur. For stone fruit, use 2 to 4 pounds to 50 gallons of water. For apple and pear, use 3 to 3 pounds in 50 gallons of water.

Lb. 10c; 10 lbs. 75c; 100 lbs. \$6.00.

DRY MILLED SULPHUR — Used as a fungicide, also for blight or mildew on roses.

Lb. 10c; 3 lbs. 25c; 14 lbs. \$1.00; 100 lbs. \$5.00.

COMMERCIAL SULPHUR — Especially valuable as an insecticide and splendid for soil treatment.

Lb. 5c; 10 lbs. 45c; 100 lbs. \$3.25.

DUSTING SULPHUR — The standard dust-control of red spider, mildew, leaf-spot, and rust. The grade we offer is very fine and fluffy, will not clog.

Lb. 5c; 10 lbs. 45c; 25 lbs. 95c; 100 lbs. \$3.25.

MAGNESIUM SULPHATE — A splendid soil conditioner.

Lb. 10c; 10 lbs. 75c; 100 lbs. 6.00 F. O. B. San Antonio:

ZINC SULPHATE — Used to control Rossette in Pecan trees. May be used in the soil or by placing in trunk of tree. Best results however are obtained by spraying leaves. Use 1 to 1½ lbs. to 50 gallons of water when leaves are about ½ inch long, 2 to 3 lbs. to 50 gallons of water when leaves are fully matured.

Lb. 10c; 10 lbs. 90c; 25 lbs. \$2.00; 100 lbs. \$7.50.

ALUMINUM SULPHATE — For making the soil acid for Azaleas and Camellias. Used also to change the color of Hydrangeas.

Lb. 10c; 10 lbs. 75c, not prepaid.

GROUND PYRETHRUM FLOWERS — Dust directly on ants, also a splendid ingredient for killing flies, mosquitoes, roaches, etc. We recommend this preparation where a powder is desired. It is very effective and most economical to use.

Lb. 50c; 10 lbs. \$4.50.

FORMALDEHYDE — Used to disinfect incubators and to control seed-borne diseases on certain sorghums and seed potatoes.

Pints Quarts ½ Gallon 1 Gallon — Ask for Price.

COPPERAS (Sulphate of Iron) — Copperas is used to put the color in the foliage and blossom of the plant. It also aids them in blooming. If your shrubs or other plants have a pale, sickly green color they need Copperas. A splendid neutralizer of alkali in the soil. Use 200 to 400 pounds per acre; also fine for lawns.

Lb. 5c; 10 lbs. 45c; 25 lbs. \$1.00; 100 lbs. \$3.00.

TOBACCO DUST — For fumigating and dusting plants.

Lb. 10c; 10 lbs. 75c; 25 lbs. \$1.50, prepaid.

COPPER SULPHATE (Blue Stone) — Used for making Bordeaux Mixture.

Lb. 15c; 10 lbs. \$1.25; 25 lbs. \$2.60; 100 lbs. \$10.00.

Our employees are competent and qualified to help you with your problems in gardening, spraying and fertilizing and will be glad to assist you in making your garden a success.

CARBON BISULPHIDE

CARBON BISULPHIDE (High Life) — Used very extensively in fighting harvester and cut ants. Most effective if used after a good rain, pour carbon bisulphide into nest opening late in the evening and close up opening. Use from 1 quart to gallon depending upon size of nests. As a weevil control use 2 to 3 ounces to a 50-gallon drum.

Pts. 40c; qts. 60c; ½ gal. \$1.00; gal. \$1.90, not mailable.

TRIX KEEPS MALE DOGS AWAY WHILE FEMALES ARE IN SEASON.

When Trix is used female dogs can be exercised in the streets or elsewhere on the leash without the annoyance from males. They can lead a normal existence and the owners home will not be besieged by strange dogs.

Bottle ----- \$1.00

ANTROL ANT TRAPS

SAFE TO USE AROUND CHILDREN AND PETS

Can Be Used Inside or Outside the House
ANTROL ANT TRAPS — Kills both sweet and grease eating ants, contains two kinds of specially prepared material.

Each 10c; postpaid 15c.

Antrol Ready Filled Set containing four filled feeders, wt. 1 lb. 40c

Antrol Syrup for refilling, 4 oz. bottle ----- 35c

ANTZIX

THE NEW OUTRIGHT
ANT KILLER

Get every last ant without fail.

ANT-ZIX contains a new poison, tasteless and odorless, combined with the most attractive ant lures known. It attracts certain sweet-eating ants and then destroys them like nothing else will.

½ oz. bottle ----- 15c

1½ oz. bottle with Ramp ----- 35c

SATEX ROACH POWDER

SATEX ROACH POWDER is a combination of Pyrethrum, a non-poisonous powder that kills through suffocation and contact. Derris Elettica, a non-poisonous ingredient that is only deadly to cold blooded insects and kills through contact by paralysis, and Blue Sodium Fluoride, a mild poison that acts both as a stomach and contact poison. These three ingredients have been properly blended to make the most effective and lasting roach destroyer on the market today. With the use of some dust gun, SATEX ROACH POWDER should be thoroughly dusted over the shelves of pantries, cupboards, backs of sinks, under tables, back of baseboards and hiding places of roaches. The immediate effect is to cause the insects to come out of their retreats and rush more or less blindly, showing evidence of discomfort to be followed in a few hours by their death. SATEX ROACH POWDER is 100% active and is sold on a money back guarantee.

4 oz. can 25c; 8 oz. can 40c or 50c, postpaid.

BLUE DEATH RAT KILLER

A GUARANTEED RAT
KILLER

BLUE DEATH — A new scientific rat exterminator that rats cannot resist. It attracts the wily, shy old fellow from their lairs and gets every last one.

Blue Death contains pure, sweet, clean natural products that rats really like and eat voraciously. Blue Death is more toxic than arsenic, barium, strychnine and red squill. It is a slow acting poison and the time required to kill is from 8 to 14 hours. Its slow killing action allows rats to escape out in the open to die.

1½ oz. tube 35c; postpaid 45c.

TOPZOL

RAT & MOUSE KILLER
NON POISONOUS

TOPZOL—A new EXTERMINATOR that is NON-POISONOUS to humans, domestic animals, poultry, dogs or cats; but will kill rats and mice quickly. TOPZOL drives them outdoors to die.

TOPZOL POWDER

2 oz. can 50c; postpaid 60c.

TOPZOL LIQUID

1 oz. bottle 35c; 4 oz. bottle 65c.

TOPZOL PREPARED RAT BAITS

READY FOR INSTANT USE

Package of ten prepared Baits ----- 19c

CYANOGLAS

While rats can keep clear of baits and traps they cannot escape from CYANOGLAS. This makes CYANOGLAS the perfect rodenticide. Widely used throughout the world by farmers, warehousemen, Health Departments, Government Agencies, etc.

CYANOGLAS ANT KILLER does not rely on feeding habits of the ants. It kills them with gas. The spouted 4 oz. can (enough to kill a million ants) is especially designed for treating ant nests in gardens and lawns.

E-Z-GIVE PREPARATION

WORMER—TONIC—CONDITIONER

Sheep — Goats — Poultry — Turkeys — Horses & Dogs

Goat and Sheep Raisers!—Why drench or capsule your livestock for worms, which is only a temporary relief from worm infestation?

Eliminate all the labor of catching your sheep or goats and treating them individually, by using **E-Z-Give Preparation**. Just add one pound package to each 50 lbs. of salt and feed this mixture every other week. Not only rids your livestock of worms, but keeps them healthy and thrifty and costs less than 4½¢ per head per year to use it.

Poultry!—Keep your flocks of poultry or turkeys thrifty and healthy with **E-Z-Give**. Just mix **E-Z-Give Preparation** with your mash and feed as directed. Will keep your flock free of worms; does not curtail egg production, and costs less than 4½¢ per head per year to use. Complete directions printed on each box for worming sheep, goats, lambs, poultry, turkeys, horses or dogs.
1 lb. Pkg. \$1.50.

Horses and Mules!—One teaspoonful to each animal once or twice a week.

Hogs!—For each 100 pounds the hog or pig weighs, use one teaspoonful of **E-Z-Give Preparation**, the concentrated chemical wormer. Mix this with damp mash or slop and give the hogs or pigs two regular feedings of this mixture. Give this mixture every other week for best results.

Dogs!—Place teaspoonful of **E-Z-GIVE** on back of tongue.

PHENOTHIAZINE

Various types of treatments are used for different species of intestinal parasites in sheep, but none has yet been discovered which will so effectively remove so many common types of worms. Of particular importance is the effectiveness of this drug against the nodular worm (*Oesophagostomum columbianum*), for which there has been no effective treatment.

In addition to the nodular worm, Phenothiazine has been found to be effective against the following species of worms which infest the digestive tract of sheep: common stomach worm (*Haemonchus contortus*), the lesser stomach worm (*Ostertagia* spp.), the "bankrupt" worm (*Trichostrongylus* spp.), the hookworm (*Bunostomum trigonocephalum*), and the large-mouthed bowel worm (*Chabertia ovina*).

It is difficult to differentiate with certainty, the various species of worms affecting sheep, so the stockman is particularly fortunate to have available a treatment which will remove most of the common types.

PTZ Capsules contain the recommended dosage of Phenothiazine, together with other materials which have been found to give increased efficacy.

Because of the relatively large dosage that is required, the materials have been compressed into tablet form and enclosed in a gelatin capsule to make possible convenient administration.

The safety of **PTZ Capsules** has been demonstrated by the administration of several times the recommended dosage without any bad effects whatsoever.

UDDER HELP

Udder Help is the ideal all-purpose ointment for livestock. Its healing, antiseptic properties make it useful in all cases for cuts, sores, bruises, cracks or chapped teats, treating noncontagious garget. Use freely to massage sprained or stiff muscles and joints.
1 lb. can 90¢; 5 lb. can \$4.25.

ONE-RUB FLEAFINISH

ONE-RUB FLEAFINISH is the latest discovery for the complete extermination of fleas and lice on dogs, cats or any other animal. **One-Rub** differs from the general run of flea powders in that it is not just another flea powder, but an absolutely guaranteed flea killer and the most economical because it only requires a small quantity on the animal's back between the shoulders rubbed in on the skin, and in less than 24 hours every flea on the animal will be dead.

ANDERSON BLUE RIBBON PULLMAN CHICK BOXES

The boxes are made of high grade, strong corrugated board with weather-proof Kraft outside and dark blue chip liner.

Pleasingly printed in red and blue—corners slotted to make assembly more attractive.

All folds perfectly scored—Partitions scored so they turn in one direction on one side and in the reverse direction on the other side. Insides slightly scored where partitions attach to box.

All holes perfectly and uniformly semi-punched to give complete control of ventilation.

Chick boxes, wrapped 30 to bundle; 3 week boxes. 10 to bundle; 6 week boxes, 10 to bundle. We do not break bundles.

Delivered to Destination in 100 lb. Shipments; Small Quantities F. O. B. San Antonio, Texas

ANDERSON LOCAL DELIVERY BOXES CORRUGATED

A good corrugated box, in standard sizes, but of lighter weight material than the Standard Stapled Box.
Designed for local deliveries, it offers a saving to the hatcheryman who does a lot of custom hatching or who sells most of his chicks near home.

SEMI PUNCHED FOR TRI-LOK SPACERS

Home Town Box Lids are semi-punched to receive Tri-Lok Spacers—another economy—Tri-Lok Spacers may be inserted in the slots to furnish ventilation while chicks are stacked in the hatchery or sales room, then removed when the box is delivered to the local customer and used repeatedly in other boxes or they may be left in place if needed during transportation.

Full freight allowed on Chick Boxes provided shipment weighs 100 pounds or more. Freight allowance does not apply on Chick Box Supplies.

ANDERSON STICKLESS FEED-O-BOX

NO STICKS NO NAILS

Good hatchery managers like to know that their chicks are being delivered in the best possible manner. By standardizing on Stickless Feed-O-Boxes you know that every box taken out of your hatchery, whether for distant shipment or for local delivery, is provided with adequate ventilation.

The partitions which extend above the lid of the box, separating one box from another, give an inch space of ventilation between boxes. The bowed covers of the box prevent the shutting off of ventilation when boxes are stacked against wall or against other boxes. The Feed-O-Box punching itself provides additional ventilation in part when necessary.

30 Boxes per bundle.

Capacity	Dimensions	Up to 500	500 to 2000	2000 to 5000
ST-100—100 Chick	22x18x5½	22¼	20¼	19¼
